PART I.

GENERAL

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Government Proceedings No. 1566-7, dated 16th October 1902, requesting the First Councillor and Revenue Commissioner in Mysore, to place himself in direct correspondence with the Honorary Secretary, South Mysore Planters' Association, with a view to confer with the leading members of the planting community regarding the depressed state of the coffee industry.

ALSO—

Letter No. 1803, dated 27th March 1903, from the Revenue Commissioner in Mysore, forwarding for the orders of Government, a memorandum giving in some detail notes of the discussion and the conclusion arrived at, on the subjects brought up by the Representative Members of the community at a conference held at Saklespur and Madgere on the 4th and 5th December last.

No. G. 586-90, DATED BANGALORE, 3RD AUGUST 1903.

ORDER THEREON.—In response to a request made by the South Planters' Association, Mr. Madhava Rao, 1st Councillor and Revenue Commissioner, was deputed to meet them and hear their representations concerning the various matters affecting the prosperity of their industry. A large number of subjects were discussed; an elaborate memorandum prepared by Mr. Graham Anderson was presented; and the First Councillor has sent up a report of the conference. The various questions raised are stated below with the views and decisions of Government, wherever possible.

2. On the question of pecuniary assistance being given to Planters, no definite proposal has been submitted. Government recognise that the times are hard for the industry generally; but they cannot see their way to suggest any remedy, as they cannot advance any money on more advantageous terms than what the European Planters are apparently likely to command in the private market.

3. There were no definite proposals made on the subjects of legislation about Coffee Stealing Act and Weights and Measures which were mooted. On the subject of the Labour Law, certain criticisms were made on the Bill then pending in Madras, and the need of adapting it properly to local requirements was urged. These matters are receiving the attention of Government; and proper opportunity will be afforded for the views of the Planters and others interested in this special measure being represented to Government, before any new law is passed on the subject of labour.

4. The question of registration of titles, having been dropped, it requires no consideration.

5. On the question of a coffee cess for the purpose of advertising in the proper markets, Government do not quite understand what they are expected to do. The matter seems to be one for settlement by voluntary co-operation on the part of Planters.

6. Government note that the questions mooted about additional Justices of the Peace were not pressed; and they consider that as the European Magistrate and Justice of the Peace stationed in Saklespur is available for exercising jurisdiction over both the Districts, no further action in the matter is necessary.

7. On the action proposed to be taken about the prevention of adulteration of coffee, there is nothing that Government can do at present. They will always be ready to consider the advisability of taking any steps that may be suggested, either by the Planters or by any legislation that may be undertaken in British India.

8. Regarding the rule under the Forest Regulation whereby owners of land are rendered criminally liable for the non-report of injury done to sandal trees

standing on such land, the Government of His Highness the Maharaja have, after consulting all the Deputy Commissioners of Districts, and on further consideration, cancelled the said rule.

9. The other representations and requests are noted for consideration in the Departments concerned :—

i. The representation that the repair and maintenance of roads require better supervision, is referred to the Public Works Department.

ii. The observations about jungle fires, and the proposed rule about assessing compensation for sandal trees to be removed from occupancy land, and the prohibition to grant lands within 50 yards of springs on the hill slopes, will be considered in the Forest Department.

iii. The request that better Receipt Books may be supplied, is noted.

iv. The Agricultural Chemist is requested to complete the analysis of substances said to have been submitted to him by some of the Planters of Mudgere.

10. The complaint about delays in the disposal of business in the Civil Courts is referred to the Chief Court for such notice being taken as the Chief Judge considers desirable in the interests of speedy disposal of such work.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Secretary to the Government of Mysore, P. W. D.
The Secretary to the Government of Mysore, Forest Department.
The Registrar, Chief Court.
The Agricultural Chemist in Mysore.

READ—

Letter Circular No. 1, dated the 20th May 1903, from the Secretaries to the Industrial Exhibition Committee, Madras, asking for co-operation and support in connection with the Industrial Exhibition proposed to be held at Madras in Christmas week at the end of this year.

No. G. 668-707, DATED BANGALORE, 6TH AUGUST 1903.

ORDER THEREON.—In response to the application read above, the Secretaries to the Committee of the Madras Industrial Exhibition were informed in this office letter No. G. 147, dated the 11th July 1903, that His Highness the Maharaja fully sympathised with the movement and that the manner in which the Government of Mysore might support the exhibition was under consideration.

2. Government observe that irrespective of the general benefits accruing from such a movement, the proximity of Madras, where it is intended to hold the proposed Exhibition, will be of special advantage and be productive of great practical good to Mysore. In this view the Government of His Highness the Maharaja are pleased to direct that the entire management of the Mysore Section of the Exhibition, *i. e.*, the collection and despatch of Exhibits from the Mysore State, be undertaken and paid for by this Government.

3. The elaboration and working out of all the details in connection with this subject will be entrusted to Rao Bahadur Mr. C. Madiah, Inspector General of Police in Mysore, who will place himself in direct communication with the Deputy Commissioners of Districts and such other officers of the State as he may consider necessary, and do all in his power to render the co-operation of this Government a success.

4. The Deputy Commissioners of Districts are requested to give to the subject their immediate attention, to explain to the manufacturers the beneficial results expected from such Exhibitions and to give cordial help in securing a good representation of Mysore Industries at the Exhibition. The Heads of Departments connected with Industries, such as the Conservator of Forests, the Inspector General of Prisons, the Superintendent, Government Museum, the State Geologist etc., will also help in the undertaking. The Palace Controller is also requested to render such co-operation as may be graciously permitted by His Highness the Maharaja.

5. When necessary enquiries as to details have been made, Rao Bahadur Mr. Madiah is requested to inform Government as to the progress made in the work, and ask for such further instructions as may be found necessary, besides furnishing Government with an estimate of the cost involved.

6. In matters relating thereto, Mr. Madiah may hold direct correspondence with the Secretaries to the Madras Industrial Exhibition.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—Rao Bahadur C. Madiah, Esq., Inspector General of Police in Mysore.

Other Heads of Departments.

READ—

Letter No. 7526—1003, dated 25th June 1903, from the Comptroller to the Government of Mysore.

Adverting to Government Proceedings No. 13911-50—P. & A. 1216 of 18th March 1903, directing that service books should be properly checked and brought up to date in accordance with the rules laid down in the Civil Account Code and the Mysore Service Regulations, I have the honor to report that I have issued a circular, giving detailed instructions on the subject to all Heads of Offices and Departments, which will appear in the next issue of the *Mysore Gazette*. In para 5 of their order, Government direct that in cases in which the service books are not brought up to date, the pay of the officials concerned should not be disbursed from October next without a special order of Government. I solicit further instructions as to how I am to give effect to this order, how this office is to find out that the service books in any office are incomplete and to determine who the officials are that are responsible for the imperfection and whether the pay of the Head of the Office or that of his entire establishment should be stopped.

2. In this connection I beg to bring to the notice of Government that in the circular which I have been issuing every year (copy enclosed for ready reference) for the prompt submission of the annual returns of establishment by all Heads of Offices and Departments, it has been distinctly laid down that the pay bills due 1st October will not be discharged at the Treasuries unless accompanied by a certificate stating that the schedule for 1st July has been forwarded to this office. But from experience I find the rule is practically inoperative. In the case of sub-offices and establishments, the certificate is duly endorsed on the bills presented at the Treasury for payment but the annual returns are retained at the Head Office and sent to this office long after the bills are cashed and not unfrequently only after requisitions and in a few cases reminders from this office.

3. I would therefore suggest that the Head Office of each Department be made primarily responsible for the submission of all the annual returns of the Department and that the Head of the Department be required to certify either in his own salary bill or that of his establishment that the annual returns of his department, including those of all sub-offices and establishments under his orders, have been forwarded to this office and the rule laid down in para 6 of my circular be made applicable to the Head of the Department or his establishment—the Head of the Department being empowered to stop the pay of his sub-offices if the returns therefrom be not received in his office before a date to be fixed by him. Further to enable the Head Office to collect these returns and forward them duly checked and compiled to this office, I would suggest the extension of the period allowed for their submission by one month the certificate prescribed in para 6 of my circular being endorsed on pay bills presented on the 1st November instead of 1st October as heretofore. I request you will be so good as to obtain early orders of Government.

No. P. & A. 196—235, DATED BANGALORE, 11TH AUGUST 1903.

ORDER THEREON.—The report of the Head of each Office, that the terms of the order of Government No. 13911-50—P. & A. 1216, dated 18th March 1903, have been complied with, may be accepted as sufficient by the Comptroller. The latter's suggestion that time may be extended to 1st November is accepted. The Head of each Office should assure himself by personal examination that the order has been fully carried out and send up a report to that effect to the Comptroller. Unless the names of officials responsible are given, the Comptroller may direct the bills of the whole establishment to be stopped.

H.V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Comptroller to the Government of Mysore.
The other Heads of Departments.
The Deputy Commissioners of Districts

Notification No. 17884—G. F. 349-92, dated the 8th May 1902, publishing consolidated Rules relating to the Mysore Local Service Examinations.

ALSO—

Letter No. 2474—106, dated 4th November 1902, from the Excise Commissioner in Mysore, bringing to notice the omission in the syllabus prescribed in the above Rules for the Excise Examination, of the Methylated Spirits Act XVI of 1863 as extended to Mysore by Regulation II of 1885 and Rules framed thereunder which originally formed one of the subjects of the said Examination, and requesting therefore that the subject thus omitted may be added to the omitted list of subjects.

ALSO—

Letter No 238-E., dated 20th June 1903, from the Secretary to the Board of Examiners, Bangalore, stating that as the Regulation and Rules thereunder, above cited, were inadvertently in his office, the mistake may now be rectified by the issue of an "Addendum."

READ ALSO—

Letter No. 206-E., dated 26th March 1903, from the Secretary to the Board of Examiners Bangalore, forwarding for approval and publication in the *Gazette* a draft of Rule 8 in substitution of the existing Rule 8 published under the Notification of 8th May 1902, read above, as the proposed draft rule is more explicit and clear than the existing one regarding the correct application of which, numerous references are being received from the Examiners.

No. G. 748-87, DATED BANGALORE, 11TH AUGUST 1903.

ORDER THEREON.—Government are pleased to direct the addition of the Methylated Spirits Act XVI of 1863, as extended to Mysore by Regulation II of 1885 and the Rules framed thereunder in Notification No. 12981—R. F. 208-92, dated 27th January 1893, to the list of subjects prescribed for the Excise Examination in the Notification of the 8th May 1902 above referred to and to approve of the substitution of the proposed draft Rule 8 in place of the existing Rule 8 of the rules published under the Government Notification of 8th May 1902.

2. The appended revised Notification, containing the foregoing amendments will be published in the *Mysore Gazette*, in substitution for Notification No. 17884—G. F. 349-92, dated 8th May 1902.

Subject	Text prescribed for each subject.	Maximum number of marks for each subject.
Stamp Law and Registration.	(1) Mysore Stamp Regulation II of 1900 and rules framed thereunder. (2) Mysore Court Fees Regulation III of 1900 and rules framed thereunder. (3) Regulation Act III of 1877, as amended by Act XII of 1879 and Regulation VIII of 1894, and rules framed thereunder.	100
	Total ...	100

VII.—Forest Examination.

Subject.	Text prescribed for each subject.	Maximum number of marks for each subject.
Forests ..	Mysore Forest Regulation XI of 1900 (as amended by Regulation No IX of 1901) and rules framed thereunder.	100
	Total	100

NOTE (1)—Candidates appearing in the same year for Civil, Part I, and Criminal Examinations will be required to answer only one paper on the Law of Evidence.

NOTE (2)—The Regulations, Acts, and Rules prescribed under any examination shall be subject to such modifications, amendments or alterations as may from time to time be made, according as the law may be changed or as Government may direct and candidates shall be expected to be acquainted with all such alterations provided they have been published or notified not later than six months from the date of the examination.

2. The examination shall be held at such of the places noted in the margin and on such dates in the month of November of each year and at such hours as may be notified by the Secretary to the Board of Examiners.

1. Bangalore.
2. Chikmagalur.
3. Chitaldrug.
4. Hassan.
5. Kolar.
6. Mysore.
7. Shimoga.
8. Tumkur.

3. The examination shall ordinarily be conducted in English. It will, however, be conducted in Kannada in the case of officers of not less than ten years' standing in the Mysore Service, who are unacquainted with the English language, and also of persons not in the service of Government who are, under clause (*c*)-exception (4) of Rule 8 of these rules, allowed to appear for the Registration Examination alone in Kannada.

NOTE.—The term officers means "Superior officers" as defined in Articles 256 and 257 of the Mysore Service Regulations.

4. Candidates who may obtain not less than one-third of the maximum number of marks prescribed for each subject and not less than two-fifths of the total number of marks for all the subjects of an examination, shall be declared to have passed that examination. The successful candidates in the Revenue, Civil and Criminal Examinations will be placed in the 1st or 2nd class according as they obtain not less than three-fifths or two-fifths of the aggregate number of marks in all the subjects. The arrangement in the first class shall be in the order of merit. Candidates appearing for the examinations in the Law of Practice and Procedure provided for by Rule 8 clause (*c*)-exception (5) must secure 35 per cent of the total marks allotted for the two papers for that examination.

5. No person who has not passed the examinations specified below will be eligible for the appointments noted opposite to them:—

Examinations.	Appointments
Revenue, Civil and Criminal ...	Assistant Commissioner, Subordinate Judge or Munsiff.
Revenue and Criminal	Amildar or Deputy Amildar.
Excise	Officers and subordinates of the Excise Department of certain grades, to be notified hereafter.
Accounts	Subordinates of the Comptroller's office and in District Treasuries of certain grades, to be notified hereafter.
Registration	Sub-Registrars and subordinates of the Registration Department of certain grades, to be notified hereafter.
Forests	Officers and subordinates of the Forest Department of certain grades, to be notified hereafter.

6. (*a*) Persons who have passed the examination prescribed for the degree of Bachelor or Master of Laws in any Indian University, will be exempted from passing the Civil and Criminal Examinations under these rules.

(*b*) Persons who have passed the examination prescribed for Pleaders of the 1st grade held by the Chief Court under Government Notification No. 187, dated 12th December 1884, or who have otherwise qualified themselves for enrolment as 1st grade Pleaders in Mysore, or who have passed the Civil and Criminal Examinations held under Government Notification No. 215, dated 29th January 1885, will be exempted from passing the Civil and Criminal Examinations under these rules.

(*c*) Persons who have passed the Revenue Examination held under Government Notification No. 215, dated 29th January 1885, will be exempted from passing the Revenue, Excise, Forests, Registration and Account Examinations under these rules.

(*d*) Persons who have passed the Judicial and Revenue Tests for Amildars prescribed by Chief Commissioner's Notification No. 121, dated 24th June 1871, will be exempted from passing the Revenue, Criminal, Excise, Forests, Registration and Account Examinations under these rules.

(*e*) Persons who have passed the Lower Standard, Judicial and Revenue Examinations under the Chief Commissioner's Notification No. 63, dated 5th July 1869, or No. 249, dated 15th December 1873, or No. 175, dated 23rd October 1878, will be exempted from passing the Revenue, Criminal, Excise, Forests, Registration and Account Examinations under these rules.

(*f*) Persons who have passed the higher Standard Examination under the Notification quoted in the last preceding clause, will be exempted from passing the Civil Examination under these rules.

(*g*) Persons who have passed the Judicial, Revenue and Finance Examinations under the Chief Commissioner's Notification, dated 7th April 1880, will be exempted from passing respectively the Civil and Criminal, the Revenue, Excise, Forests, Registration and Account Examinations under these rules.

(*h*) Persons who have passed the Local Munsiff's test, prescribed by Chief Commissioner's letter to the Judicial Commissioner No. 6767-1c0, dated 14th March 1874, will be exempted from passing the Civil and Criminal Examinations under these rules.

(*i*) Persons who have passed the Madras Special Test Examination, Civil and Criminal Higher Grade, held before the 31st December 1886, shall be exempted from passing respectively, the Civil and Criminal Examinations prescribed by these rules.

7. Notwithstanding anything contained in the foregoing rule, the Government reserve to themselves the power to exempt from passing the Civil Examination any person who has for a period of not less than ten years satisfactorily discharged the duties of Amildar or Assistant Superintendent of Revenue Survey or both, when such officer is promoted to the grade of Assistant Commissioner, or to exempt any Assistant Commissioner employed in the Police Revenue or other Executive Department of the Administration from passing Part II of the Civil Examination.

8. The following persons shall be entitled to present themselves for any of the examinations above specified:—

(*a*) Persons who at the time of making the application for examination have put in a service of not less than five years under the Government of

Mysore or in the Municipalities in Mysore or in Institutions maintained out of Provincial Revenues, Local Funds or from the Palace budget or in the various Departments under the British Resident in Mysore.

(*b*) Persons holding a permanent appointment in any of the Departments referred to in clause (*a*) the substantive salary of which is not less than Rs. 25 per month, though the total service may be less than five years.

NOTE (1)—Persons who do not hold permanent appointments and those in temporary service are ineligible for admission.

NOTE (2)—Shanbhogs and other village officers are not eligible for admission as they are not salaried officers of Government but are remunerated under a special system.

(*c*) Persons who have passed the First Examination in Arts or other higher examination in Arts of any Indian University.

Every applicant claiming admission under clauses (*a*) and (*b*) shall produce a certificate from his official superior as to the substantive salary of the appointment held by him, the manner in which he has discharged his duties, and his character and conduct.

Every applicant under clause (*a*) shall produce also a certificate as to the total length of his service.

Every applicant claiming admission under clause (*c*) shall produce his University certificate or diploma and also a certificate from the Principal of the College in which he was last educated or from an officer in Mysore of or above the rank of an Assistant Commissioner, of his being by character and conduct a fit candidate for admission into the Mysore Public service.

Exceptions :—

(1) Officials employed in the Treasury and Account Departments of the State and in the Excise Commissioner's office whose substantive pay is not less than Rs. 15 per mensem will be allowed to appear for the Accounts Examination.

(2) Clerks, Accountants and members of the executive staff employed in the Excise Department whose substantive pay is not less than Rs. 15 per mensem will be allowed to appear for the Excise Examination.

(3) Officials of the Forest Department whose substantive pay is not less than Rs. 15 per mensem will be allowed to appear for the Forests Examination.

(4) Persons not in the service of Government who have passed the Mysore Lower Secondary Examination whether in English or in Kannada or the Matriculation of any of the Indian Universities taking Kannada as their optional language will be allowed to appear for the Registration Examination in *Kannada*.

(5) Persons required to pass an examination in the Law of Practice and Procedure under the rules relating to the admission of Advocates will be allowed to appear for the paper on the Code of Civil Procedure and the Indian Limitation Act prescribed for the Civil Examination, Part II, and the paper in the Code of Criminal Procedure and Police Rules prescribed for the Criminal Examination.

(6) Matriculates who are allowed to appear for the 2nd grade Pleaders' Examination under the rules relating to the admission of Advocates and Pleaders can appear for the Revenue, Civil, Parts I and II and Criminal Examinations either as a whole or in parts by paying fees for such parts as they may take up.

Every applicant claiming admission under Exceptions 1, 2 and 3 shall produce a certificate from his official superior as to the substantive salary of the appointment held by him, the efficient manner in which he has discharged his duties and his character and conduct.

Every applicant claiming admission under Exceptions 4, 5 and 6 shall produce a certificate from the Principal of the College in which he was last educated or from a Mysore officer of or above the rank of an Assistant Commissioner of his being by character and conduct a fit candidate for admission.

9. Any Advocate of the Chief Court of Mysore shall also be entitled to present himself for the Revenue, Excise, Forests, Registration and Accounts Examinations above specified upon production of his certificate or other proof of enrolment as such Advocate.

10. Every candidate must produce a certificate of his being above 20 years of age and of his physical fitness for the Public Service from a Medical Officer of or above the grade of a Civil Surgeon, but no such certificate is required in the case of officials who may have already furnished it. Candidates appearing for the Pleaders' Examinations are required to produce only a certificate that they are over 20 years of age. No certificate of physical fitness is necessary.

11. Every candidate must send his application to the Secretary to the Board of Examiners, so that it may reach him on or before the 31st August of each year.

12. Every candidate must pay into a District or a Taluk Treasury in the Mysore State an admission fee calculated as follows for each examination he wishes to present himself for:—

		Rs.
I.	Revenue Examination	7
II.	Civil Examination, Part I	7
II.	Civil Examination, Part II	5
III.	Criminal Examination	7
IV.	Excise Examination	5
V.	Accounts Examination	5
VI.	Registration Examination	5
VII.	Forest Examination	5
VIII.	Law of Practice and Procedure	7

The fee will be returned if the candidate's certificates are not considered statisfactory. No refund or reservation of the fee will be allowed under any other circumstances.

13. Every application should be in the subjoined form and be accompanied by:—

(1) the certificates prescribed by rules 8, 9 and 10;

(2) a Treasury Officer's receipt for payment of the fee prescribed by rule 12.

Form of application for Admission into the Mysore Local Service and Pleaders' Examinations.

READ—

Notification No. 2528, dated Simla, the 2nd July 1903, of the Government of India, Home Department.

NOTIFICATION

The Governor General in Council with the previous sanction of His Majesty's Secretary of State for India, is pleased to direct that in the Notification of the Government of India in the Home Department, No. 1324, dated the 2nd May 1902, for the words "Order of Merit" the words "Indian Order of Merit," and for the rules published therewith the following rules shall be substituted :—

Rules for admission to the Civil Division of the Indian Order of Merit.

1. The "Indian Order of Merit" (Civil Division) consists of three classes, and is conferred on Natives of India, whether servants of Government or not, as a reward for personal bravery shown in aid or support of the public authority or safety. The insignia are, for the first class, gold; for the second, silver with a gold wreath; and for the third, silver only; to be worn on the left breast, pendant from a dark red ribbon with blue edges.

2. Admission to the third class is obtained by any conspicuous act of individual gallantry; admission to the second class can be obtained only by members of the third class, and for a similar act of gallantry; and in like manner, the order of the first class is conferred only on members of the second class. In recommending persons for admission to the order, the act of gallantry must be particularly specified, and the statements of eye-witnesses to the deed must be attached. It is of the highest importance, in view of maintaining the value and prestige of the order, that the greatest discretion shall be used in submitting recommendations; as it is very desirable that the distinction should only be granted for conduct which can clearly be defined as an act of conspicuous gallantry.

3. Admission to each class of the order rests with the Government of India alone; and when the act of gallantry has taken place in India, recommendations for the reward will be forwarded for submission to the Government of India, in the case of civilians through the District Officers to the Local Government, and in the case of native officers and soldiers through the usual military channels.

4. A record in each case of the particular act of gallantry for which the order has been conferred is kept in the office of the Secretary to the Government of India in the Home Department; and a certificate signed by him, declaring the grant of the order, will be given to each individual on his admission to, or advancement in it.

5. District Officers are required to report immediately to the Local Government, for communication to the Government of India in the Home Department, any casualty by death amongst individuals admitted to the order which may occur previous to the receipt of the decoration.

6. The following are the rules for the disposal of the insignia of the Civil Division of the "Indian Order of Merit" on the decease or promotions of members :—

In case of advancement to a superior class of the Civil Division of the "Indian Order of Merit," the inferior badge is to be forwarded, through the prescribed channel, to the Secretary, to the Government of India in the Home Department, Calcutta. The insignia of the order, are however, allowed to remain in the possession of the family of a deceased member.

7. Whenever a servant of the Government, being a member of the order, is dismissed the service, and whenever any member of the order is convicted of any such offence, or subjected by a Criminal Court to any such order, as implies, in the opinion of the Local Government, a defect of character which unfits him to be a member of the order, a full report of the circumstances shall be transmitted to the Government of India in the Home Department, together with an expression of the Local Government's opinion; and it shall, thereupon, be open to the Government of India to direct the dismissal of any such member from the order and to require the surrender of his decoration.

8. As a rule the conferment of the Indian Order of Merit in the Civil Division will not be accompanied by any grant of money but the Government of India reserve the right of making such a grant, in addition to conferring the order, in special cases.

H. H. RISLEY,
Offg. Secy. to Govt. of India.

No. G. 957—96, DATED BANGALORE, 12TH AUGUST 1903.

ORDER THEREON.—Circulated to the Heads of Departments and Deputy Commissioners of Districts, for information, in continuation of Government Proceedings No. 3374-413—Mis. 570, dated 9th September 1902.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Heads of Departments.
The Deputy Commissioners of Districts.

READ AGAIN—

Government Proceedings No. 17108-47—Mis. 2647, dated the 1st June 1903, directing that all appointments and promotions involving a salary of Rs. 100 and above should be reported to Government for sanction.

ALSO—

Letter No. 532—203, dated the 28th July 1903, from the Comptroller to the Government of Mysore, enquiring whether the Government Order referred to above does not include all appointments, whether permanent or temporary or officiating, carrying salaries fixed at or above or progressing to or above Rs. 100.

No. G. 910-49, DATED BANGALORE, 12TH AUGUST 1903.

ORDER THEREON.—Government direct that all appointments, whether permanent, temporary or officiating, carrying salaries fixed at or above or progressing to or above Rs. 100, should be reported to Government for sanction.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Comptroller to the Government of Mysore.
The Heads of Departments.
The Deputy Commissioners of Districts.

READ—

Letter No. 73, dated 1st August 1903, from the Deputy Commissioner, Kadur District, reporting the election of two Taluk members for Mudgere Taluk, who were wanting in property qualification and the course adopted by him.

No. G. 1023-80, DATED BANGALORE, 13TH AUGUST 1903.

ORDER THEREON.—The election of Kesavaiya as a member for the Representative Assembly was *ab initio* void by reason of his not having had the requisite property qualification and the Deputy Commissioner's action in setting it aside is confirmed.

2. The election of Janardanaiya being similarly void, the Deputy Commissioner's promise to treat it as valid, in the event of the candidate acquiring within a week the needful qualification, is clearly unwarranted. The Deputy Commissioner quotes Government Proceedings No. 2917—Mis. F. 296, dated 28th August 1897, as an authority for the course adopted by him; but Government observe that therein such promise was held out by them, regard being had to certain very special circumstances which are absent in the present case.

3. The Deputy Commissioner is requested to obtain and to forward, with his remarks, an explanation from the Amildar of Mudgere touching his serious omission to have furnished the chairman of the election meeting with the list of eligible members in the taluk.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioner, Kadur District.
The Deputy Commissioners of other Districts.

READ THE FOLLOWING PAPERS :—

(1) Letter No. 249—1260, dated the 11th July 1902, from the Comptroller to the Government of Mysore, on the subject of the establishment charges of the Cemeteries at Shikarpur and Nagar in the Shimoga District.

(2) Letter No. 310, dated the 24th January 1903, from the Chief Engineer of Mysore on the same subject.

(3) Correspondence ending with letter No. 903—677, dated the 5th May 1903, from the Deputy Commissioner of the Shimoga District, on the same subject.

(4) Letter No. 7761, dated the 4th August 1903, from the Venerable the Archdeacon of Madras, received from the First Assistant to the Resident in Mysore, with his endorsement No. 3747 of the 11th August 1903 :—

From the Secretary to Government of Mysore, General and Revenue Departments, to First Assistant Resident, Mysore.

"With reference to your endorsement No. 3042, dated 29th June 1903, on letter No. 17956—G. F. 160-92, dated 22nd June 1903, I have the honor to forward copy of G. O. No. 60, Ecclesiastical, dated 29th July 1903, Proceedings of the Madras Government, from which it will be observed that the objection of the Accountant General to the payment of two coolies employed for the maintenance of the cemeteries at Shikarpur and Nagar in the Shimoga District, has been removed and that the arrears of payment may be redrawn."

Ecclesiastical Department.

Proceedings of the Madras Government.

READ THE FOLLOWING PAPERS :—

From the Venerable the Archdeacon of Madras, No. 7396, dated 4th July 1903.

From the Accountant-General No. T. 51 Bang.—4303, dated 23rd July 1903:—

"In returning the enclosures received with your endorsement No. 2473, dated 13th July 1903, I have the honor to state that under the circumstances explained by the Secretary to the Government of Mysore and the Venerable the Archdeacon of Madras, the objection has been removed and the sums may be redrawn."

ORDER No. 60, DATED 29th JULY 1903.

The Accountant General's letter will be communicated to the Venerable the Archdeacon.

No. 1278 87—G. F. 160-92, DATED BANGALORE, 29TH AUGUST 1903.

ORDER THEREON.—Communicated to the Comptroller to the Government of Mysore and to the Deputy Commissioner of the Shimoga District.

2. The Deputy Commissioners of Districts and the Deputy Commissioner of Shimoga in particular will be requested to see that the amount of contingencies provided in the budget estimates for the establishments of the cemeteries in the State, is drawn on contingent bill forms alone and not on establishment bill forms as was done in the Shimoga District in the instance referred to.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Comptroller to the Government of Mysore.
The Deputy Commissioner of the Shimoga District.
The Deputy Commissioners of other Districts.
The Chief Engineer of Mysore.

EDUCATION

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Petition Registered No. 2147, dated the 5th February 1903, from M. Narasimhaiya and others in the Mysore City, complaining that the recent raising of the admission fee for the Lower Secondary Examination is a hardship to poor students and praying for the reduction of the same.

ALSO—

Letter No. 10569—377, dated the 13th June 1903, from the Inspector General of Education in Mysore.

With reference to Official Memorandum No. 16830—Ed. 475, dated 26th May 1903, forwarding petition No. 2147, dated 5th February 1903, complaining of the raising of the fees for admission to the Lower Secondary Examination, I have the honor to inform you that a Vernacular Examination called the Pupils' Examination was first established in 1886. The fee prescribed then for the pupil candidates was Re. 1 and for private candidates Rs. 4. In that year the total realization from fees was only Rs. 368, and the expenditure Rs. 3,524, the deficit of Rs. 3,156, being made up by Government. From 1891 the Lower Secondary Examination took the place of the Pupils' Vernacular Examination. It is the leaving examination of all Middle Schools, English, Vernacular or Sanskrit. The two following tabular statements show the gradual enhancements of admission fees, and the disbursements, candidates' fees, and Government contributions towards the maintenance of all the Local Examinations from 1886 to 1903 :—

Mysore Lower Secondary Examination.

Date from which the prescribed fees came into force.	English pupil candidates (and Teachers).	Non-English pupil candidates (and Teachers).	English private candidates.	Non-English private candidates.	Female candidates (and those who take up Sanskrit only, Persian only or any vernacular language only).

Mysore Local Examinations.

	Disbursements.	Fees from candidates.	Deficiency made up by Government.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
1886-87	3,524 13 1	368 0 0	3,156 13 1
1891-92	6,819 14 8	2,241 0 0	4,578 14 8
1892-93	6,843 12 4	3,793 8 0	3,050 4 4
1895-96	9,903 15 0	6,411 0 0	3,492 15 0
1896-97	10,588 5 11	7,464 0 0	3,124 5 11
1900-01	10,754 0 6	10,497 8 0	256 8 6
1902-03	10,875 14 5	10,543 0 0	332 14 5

2. It will be seen from the above tables as well as from the table appended to this letter showing the number of candidates, receipts and expenditure during the past 12 years, that the Government contribution varied from Rs. 4,578 to Rs. 2,064 during the period of nine years from 1891-92 to 1899-00, and that the contribution of Government decreased as the fees were gradually increased. With the last increase of fees but one in December 1900, the Government contribution was brought down to Rs. 256 in 1900-01. In 1901-02, there was actually a gain to Government of Rs. 61 after all expenses were paid. In 1902-03, the number of candidates was adversely affected by plague, and there was a fall in the fee income of Rs. 237, while Government had to contribute Rs. 332. If the rates of fees suggested by the petitioners *viz.*, Rs. 3, 2 and 1 for English, Kannada and Female candidates respectively, could have been in force in 1902-03, the deficit to be made by Government would have been Rs. 4,796 in place of Rs. 332. Government have been emphasising the principle that the Local Examinations should pay their own way, and have declined to bear the cost even of the Local Examination Office. Under these circumstances the Local Examination Board could not help raising the fees of candidates gradually. The number of Local Examinations, which were only two at first, called the Kannada Pupils' and the Kannada Teachers' Examinations, have now increased to seven.

They are—

(1) The Lower Secondary Examination which is a combination of three leaving examinations of all Middle Schools, whether English, Kannada or Sanskrit.

(2) The Vernacular Upper Secondary Examination.

(3-5) The Teachers' Certificate Examinations, both theoretical and practical, of the primary, lower secondary and upper primary grades.

(6) Kannada Pandits' Examination.

(7) Maulvis' Examination.

None of the examinations Nos. 2 to 7 can pay its way from the fees of the candidates. The number of candidates at these examinations is very small and their cost is comparatively high. The Kannada Pandits' Examination, for instance, costs nearly Rs. 600 while the fees from candidates amount to only Rs. 30 to Rs. 50. The case is the same with the University Examinations. The fees of the Matriculation Examination bring such a large revenue that after the cost of the Examination is defrayed, a balance of more than Rs. 60,000 goes towards the cost of the higher Examinations. This year a new examination has been introduced called the Maulvis' Examination, which will cause an additional expenditure of about Rs. 600. To meet this additional cost it was necessary to raise slightly the fees of the Lower Secondary Examination of 1903.

3. The present fees of the Lower Secondary Examination cannot be said to be excessive when it is considered that the fee prescribed for the old Madras Middle School Examination was Rs. 5 uniformly for all candidates, and that for the Madras Lower Secondary Examination the fee has been for the last twenty years Rs. 3 for the compulsory subjects, and Re. 1 for each optional subject, and no one is considered to have passed the Lower Secondary Examination unless he passes in the Compulsory group and two optional subjects, though a candidate is permitted to pass in more than two optional subjects by paying additional fees.

The fee of Rs. 5 prescribed this year in Mysore for English candidates at the Lower Secondary Examination in five subjects has been reached in the course of 13 years by five gradual increases, while the fee of Vernacular candidates is only Rs. 4 and that of Female candidates only Rs. 2-8-0. The Madras Department makes no distinction between English and Vernacular candidates or between male and female candidates in the matter of fees.

4. It is insinuated in the petition that the fees of examiners may be curtailed to keep the fees paid by candidates low. The fees paid to Examiners for each paper were based upon the scale adopted in Madras for corresponding examinations and subjects up to 1898. As Government insisted from time to time upon recovering the cost of the examinations from the fees of the candidates, it became necessary in 1898 to limit the fees of Examiners in each subject to lump sums irrespective of the number of papers they valued. These lump sums were fixed after duly considering the fees paid to Examiners in the previous three years by the number of papers examined. The lump sums fixed in 1898 have remained the same till now, though the number of candidates has considerably increased. The fees therefore paid at present to Examiners are considerably less than the corresponding fees paid in Madras. It would be most unwise to reduce further the fees of Examiners, for we not only require ability but also unimpeachable character, quick judgment and hard strenuous work in Examiners, and a fair amount of remuneration must be paid to secure the help of good men.

No. G. 649—Ed., dated Bangalore, 6th August 1903.

Order thereon.—The Committee for the Management of the Mysore Local Examinations have, after careful consideration, slightly raised the fee for admission to the Lower Secondary Examination in the case of certain candidates. Government approve of this increase. The petitioners may be informed that there are no grounds for the Government to withhold their sanction.

2. The Inspector General of Education is informed that in such important matters as the enhancement of fees, the previous sanction of Government should be obtained for carrying into effect the resolutions of the Committee when concurred in by him.

JUDICIAL

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

(1) Government Proceedings No. 3146-7—J. F. 53-92, dated 25th August 1892, approving of the proposals made by the Inspector General of Police in Mysore, for training candidates for the upper ranks of the subordinate Police service.

(2) *Letter No. 6, dated 5th December 1902, from the Inspector General of Police in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.*

Adverting to this office letter No. 463—29 of the 29th July 1902, stating that the Head-quarter Police Training School at Bangalore was abolished from 1st January 1902, owing to the expiry of two years for which period it was sanctioned, I have the honor to state that the Government were pleased to accord sanction in their Proceedings No. 10182-3—J. 1001 of the 9th March 1900, to the opening of the class for two terms with a view to all the deserving men already in the Force being trained. It was accordingly opened and courses of training extending over eight months were given in the years 1900 and 1901, and the school was closed by the Officiating Inspector General of Police, Mr. B. K. Venkatavaradaiengar, from 1st January 1902, who submitted a proposal for the abolition of all the existing District Police Schools and the opening of a Central Police School at Bangalore instead. The Government were not however disposed to introduce any change in respect of the matter. (*Vide* Government Proceedings No. 639—J. 67 of the 14th July 1902.)

2. It will be seen from the entire correspondence on the subject that the Head-quarter Police Training School with an establishment of 1 Inspector and 2 Drill Instructors, was in existence from the year 1877, and was intended as a permanent institution for the training of recruits and latterly of deserving Police officers already in the Force. Further, the Government were pleased to order the disbursement of full pay of such officers while under training in the school and the payment of allowances to the substitutes employed in their places at the rate of Rs. 20 each per mensem, and provided for this purpose a sum of Rs. 7,920 (*vide* Government Proceedings No. 9816-25—J. F. 53-92 of the 21st December 1893, as also No. 14153-4—J. 1723 of the 15th July 1899). Out of this amount a sum of Rs. 4,204-12-6 remained unspent at the beginning of the year 1900, as already reported in this office letter No. 2781—234 of the 30th January 1900.

3. The concession afforded by Government regarding the remaining Inspectors and Jamadars being given the benefit of training in the school has not been fully availed of, as owing to the exigencies of service and the prevalence of plague in some parts of the Province, the withdrawal of Police officers from taluks was not considered desirable. The amount however still remains unspent and may well be utilized hereafter for the purpose. The entertainment of men passed from the Training School will improve the working of the Police to a great extent, and it is of utmost importance that recruits who are qualified by education respectability of character and who are of good physique, should be selected and trained for employment in the subordinate grades. I propose, therefore to re-open the school with effect from the 10th January 1903, and the course will, as usual, extend over a period of eight months. Inspectors and Jamadars and, I may add, Dafadars, as are young and efficient and who are still remaining untrained, will be selected as usual for undergoing training in the school, and such of the duly qualified recurits will also be admitted into the school and charged a fee of Rs. 2 each per mensem, and the number of such admissions will thus be limited. I shall make a further report as to the officers and recruits admitted into the school and submit proposals for the sanction to the extra cost of substitutes being met from the unspent balance referred to above.

4. Among those who are to be trained in future for advancement in the Police Department I have advisedly included the Dafadars who bear the brunt of the work, as will be seen from the last Administration Report which shows that nearly 41 per cent of the cases have been investigated by them. They are virtually, though not in name, the Station House Officers and unless we secure the services of a better class of men than what we have at present in the Force, it is hopeless to achieve better results in the prevention and detection of crime. I would therefore request that substitutes for those who may be withdrawn from the districts for being trained in the school may be granted an allowance of Rs. 2 per mensem. This arrangement, if approved, will go a great way to improve the existing staff of Dafadars, who will in future consist of only men who have passed out of the school and will prevent indifferent class of people from being appointed to this grade.

5. Under these circumstances, I beg that the opening of the next term of the Training School may kindly be sanctioned from the 10th January 1903, as I consider that by allowing the present state of inaction as regards the training of men in the Force, we will open ourselves to the charge of having adopted a retrograde policy, while in the neighbouring British

Territories so much agitation is made to improve the status of both the officers and subordinate staff. It is time that Government by a distinct order, sets at rest once for all and clears the doubt, if any, as regards the permanency of the institution.

6. I am collecting statistics as regards the number of Inspectors and Jamadars who are in service and who had received training in the school and the same will be communicated to Government in due ecurse.

(3) *Letter No. 5484—324, dated 26th March 1903, from the same Officer submitting certain additional particulars.*

With reference to your docket No. J. 1127, dated 6th February 1903, requesting to be furnished with some additional particulars in connection with my proposal to re-open the Head quarter Police Training School, I have the honor to state in reply, seriatim to the above, that the re-opening of the school does not entail any extra cost beyond what Government have been pleased already to sanction. The subjoined statement shows the establishment sanctioned by Government for the Head-quarter Police School at different periods, and these sanctions have not been revoked :—

Details of Establishment.	Pay per mensem.	No. and date of Government Proceedings sanctioning the establishment.
	Rs.	
1 Inspector on Rs. 75+15.	90	7395-6—J. 849, dated 28th December 1897.
1 Drill Instructor ...	16	
1 Survey Instructor ...	80	Camp No. 372-3, " dated 16th June " 1893 (perhaps this amount is susceptible of being reduced to Rs. 50 per mensem).
1 Photographer ..	100 (per term)	

My present proposal only involves the giving effect once more to the sanction already accorded. The only other charge to be considered is the remuneration of the substitutes to be employed in the place of those detailed for instruction in the school, *viz.*, Rs. 20 per mensem for the officiators of Inspectors and Jamadars and an allowance of Rs. 2 each for those of Dafadars. For this purpose Government were pleased to sanction Rs. 7,920 in their Proceedings No. 9816-25—J. F. 53-92, dated 21st December 1893, and No. 14153-4—J. 1723, dated 15th July 1899. Out of this amount, Rs. 4,076 remains unspent as will be seen from the figures furnished by the Comptroller for the budget of 1901-02. If the Government be pleased to sanction the utilisation of this amount, I expect it will cover the charges for the next two years, after which period application will be made, if necessary, for sanction of a further amount. It will thus be seen that the Head-quarter Police Training School has its establishment sanctioned permanently and that no additional cost is involved either in re-opening or continuing it. Provision for the above charges has been made in the budget for the next year and the cost during the current year may be met out of Police savings, as an omission to provide the amount in the budget was allowed to occur without the specific orders of Government.

2. Adverting to para 2 of the docket under reference, I enclose herein a statement showing the number of Inspectors, Jamadars and Dafadars in the Force who require and are capable of being benefited by such training.

3. Referring to the question contained in para 3 of your docket under reference, I have to inform you that while the training in the District Police School is confined to recruits and men in service in the constabulary so as to make them eligible for enlistment and better members of the lower ranks of the Force, that in the Head-quarter Police School is of a higher standard not only in the instruction of the Codes but also practical work, with a view to make them more efficient and capable officers to be placed in charge of stations and entrusted with the onerous duties devolving on them for investigating cases, preventing crime and maintaining discipline in the Force, and lastly for the prosecution of cases. The syllabus of studies in the District Police School does not extend beyond a rudimentary knowledge of the cognizable offences in the Indian Penal Code, of the Criminal Procedure Code, and of the Evidence Act, whereas in the Head-quarter Police School the instruction imparted is of a more advanced and varied nature comprising, besides a fair knowledge in the Criminal Laws, also practical work, Medical Jurisprudence, Ambulance, Photography, Surveying, etc. In short, the one is intended for the training of the lower ranks, and the other of the upper subordinates of the Police service.

(4) Letter No. 320—25, dated the 13th July 1903, from the same officer, submitting for the approval of Government a copy of the rules for the management and supervision of the Proposed Training School, and requesting the passing of early orders on the subject of the re-opening of the said school.

(5) Para 2 of Government Order No. Fl. 2304-18, dated 24th June 1903, directing that the provision of Rs. 2,072 for Head-quarter School establishment be utilized only after sanction of Government is obtained for the opening of the school.

No. 364-65—J. F. 53-03, DATED BANGALORE, 11TH AUGUST 1903.

ORDER THEREON.—The Government of His Highness the Maharaja are pleased to sanction the re-establishment of the Head-quarter Police School at Bangalore.

2. The rules for regulating the admission of candidates to the School and its management and supervision, are approved as revised and appended.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Inspector General of Police in Mysore.
The Comptroller to the Government of Mysore.

Rules for the management and supervision of the Police Training School, Bangalore.

1. The object and aim of the School.

The School is established for the education and training of candidates for appointment to the higher grades of the subordinate Police service, with a view to raise the moral and tone of the Force to an efficient condition.

2. Control.

Subject to the general supervision of the Inspector General of Police, the management of the School will rest entirely with the Head-quarter Assistant to the Inspector General of Police, who will, through the Inspector of the School, enforce strict discipline and regulate the hours of attendance and the subjects to be taught.

3. Classes.

There shall be two classes :—

(1) For Inspectors,

(2) "The different grades of Station House Officers."

NOTE—Exclusive of Police officers in service, no more than 15 recruits shall be admitted to each of the classes, preference being given to Mysoreans.

4. Students.

1. Men in service of good character and respectability who are under 35 years of age and who are likely to benefit by undergoing a training in the School, shall be admitted.

2. Recruits directly admitted, shall be between 20 and 25 years of age and shall possess the examination qualifications noted below :—

(*a*) Inspectors' Class—Graduates and Under-graduates,

(*b*) Station House Officers' Class—Matriculates and those that have passed the Mysore Lower Secondary Examination.

All recruits must have a thorough knowledge of Kanarese and be able to read Kanarese manuscripts with facility.

NOTE—The Government in case of the Inspectors' Class and the Inspector General in case of the Station House Officers' class, may authorise a relaxation of the rule concerning the examination qualification for admission (on special considerations of previous family connection with the Department etc.) in the case of persons who possess education enough to undergo the training successfully and are otherwise specially qualified for employment in the higher grades of the subordinate Police service.

5. **Physical Fitness.** All recruits will be examined medically by the Civil Surgeon, Bangalore, before being admitted to the School. A recruit shall not be less than 5 feet 6 inches in height and 32 inches in chest measurement, exception being made in the case of Graduates in special cases.

6. **Uniform.** Men in service who are admitted to the School shall wear the uniforms of their respective grades.

Recruits shall wear a khaki uniform which will be supplied to them at their own cost.

7. **Staff.** The School staff shall consist of—

1 Inspector of Police,
1 Probationary Inspector of Police,
1 Survey and Drawing Teacher,
1 Photography,
1 Drill Instructor.

8. **Course.** The course of instruction in the School will extend over a period of *eight* months.

9. **Subjects.** The subjects in which the students will receive instruction are—

The Code of Criminal Procedure,
The Indian Penal Code,
Do Evidence Act,
The Elements of Medical Jurisprudence,
The Police Rules and Circulars,
The Finger Impression system,
The Special and Local Laws,
Survey and Drawing,
Drill—Squad and Company Drill, Bayonet, Manual, and Firing Exercises, Physical drill,
Shooting,
Photography,
Practical Work, and
Ambulance.

NOTE—Students that have passed the Mysore Local Service Examinations in certain subjects will be exempted from passing again in the same subjects.

10. **Fees.** Recruits shall pay fees as laid down below :—

	Rs.
Admission fee	1
Inspectors' Class	2
Station House Officers' Class ...	1

NOTE—1. The sons of Police officers of the Mysore Government will be required to pay only half of the above rates of fees.

NOTE—2. The fees collected from recruits will be utilised for purchasing books, chemicals and other appliances for the use of the School.

11. **Final Examination.** Final written examinations on Laws and Regulations and *viva voce* on Practical Work, shall be held at the close of the term and candidates who secure the prescribed

minimum number of marks as shown below, will be declared to have passed the Examination :—

Subjects.		Minimum.	
		Inspectors' Class.	Station House Officers' Class.
Criminal Procedure Code	100	One-third	One-fourth
Indian Penal Code			
Special and Local Laws	100	Do	Do
Police Orders	50		
Practical Work *Viva Voce*	50	One-half	One-third
Evidence Act	100	One-fourth	One-fourth
Drawing and Survey	100	One-half	One-third
Drill	100	Do	Do
Ambulance	100	Do	Do
Photography	100	Do	Do
Total No. of marks	800	50 per cent	30 per cent

12. Appointments. It shall be distinctly understood that no appointments are guaranteed, but the claims of successful candidates in the order of merit, will receive due consideration as vacancies occur.

NOTE—Candidates before being employed in the executive line of the Police Department, shall produce a certificate in equitation.

13. Practical Tuition. *A Model Police Station* completely fitted up with an entire set of Registers, etc., will be maintained in the School for purposes of practical tuition.

READ—

Letter No. 836—9, dated 11th August 1903, from the Comptroller to Mysore Government, requesting instructions with reference to para 3 of Government Proceedings No. J. 1212-13, dated 12th February 1903, as to the rates of travelling and daily allowances to be allowed to Munsiffs of the 1st and 2nd classes.

No. 496-7—J. F. 12-03, DATED BANGALORE, 29TH AUGUST 1903.

ORDER THEREON.—The Comptroller will be informed that Munsiffs of the 1st and 2nd classes, who now rank as graded officers along with Assistant Commissioners and Subordinate Judges, may have their travelling and daily allowances (among other privileges) regulated by the same rules as are applicable to the officers last mentioned.

Letter No. 160—15, dated the 6th July 1903, from the Inspector General of Police in Mysore, submitting a report on the working of the Arms and Explosives Regulations for the calendar year 1902.

Letter No. 77-8, dated 6th August 1903, from the Secretary to Government, Geological Department, offering certain observations on the above report.

No. 482-91—J. F. 43 OF 98-9, DATED BANGALORE, 29TH AUGUST 1903.

ORDER THEREON.—Recorded.

2. In their review of the report for the half year ending 31st December 1901, Government remarked on the unsatisfactory nature of the work done by local Magistrates and Police officers in the matter of the inspection of licensed premises. They regret to observe that there has been little improvement in this respect during the year 1903, and that out of 84 shops only 22 were inspected by Police Inspectors, 8 by Superintendents and Assistant Superintendents and 26 by Magistrates. Government expect District Magistrates to pay more attention to this important part of their duties, and that every shop in their districts will be inspected at least once a year either by themselves or by a subordinate Magistrate or by a superior Police officer.

3. As a separate report on Explosives is being issued every year by the Chief Inspector of Explosives, the Inspector General of Police is requested to confine his future reports to the working of the *Arms* Regulation and Rules only. Information about the inspection of premises licensed under the Explosives Regulation will, however, be furnished by the Inspector General separately to the Chief Inspector, who will embody the same in his report on Explosives.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Inspector General of Police in Mysore.
The Secretary to Government, Geological Department, and Chief Inspector of Explosives.
All District Magistrates.

LEGISLATIVE.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

(1) Letter No. 442, dated 25th June 1903, from the Inspector of Agricultural Banks in Mysore, requesting orders as to the correct procedure to be followed for the recovery of loans made by Government to Agricultural Banks.

(2.) Draft Regulation to provide for the recovery of loans made to Agricultural Banks by Government, the objects and reasons whereof are as follows:—

"The Government have from time to time advanced loans in aid of the operations of Agricultural Banks, on the understanding that these loans are to be recovered from the members jointly and severally as arrears of land revenue. Accordingly, one of the several Articles of Association of these Banks (which have invariably been registered as Companies), is to the following effect:—

"74. Any loan made to the Bank by Government shall be deemed to be an advance made for agricultural objects to the members of the Bank as holders of arable land, within the meaning of Section 194 of the Mysore Land Revenue Code, *and the same shall be recoverable from the members jointly and severally as an arrear of land revenue under the provisions of the Mysore Land Revenue Code or of any other Law for the time being in force.*"

The form of Articles of Association was one prescribed by Government under Section 95 of the Companies Regulation and has therefore the same force as if included in the Schedule to that Regulation. It was therefore believed, till lately, that Article 74 was sufficient to empower the local officers of Government to take steps for the recovery of the loans in question as arrears of land revenue. But doubts have since been raised as to whether a mere statement as above in the Articles of Association, as to the procedure to be adopted for recovery of loans, is by itself sufficient to confer the necessary jurisdiction on the Revenue officers of Government. To set these doubts at rest it has been judged advisable to embody the provision in question as an express declaration of law, as in the present Draft Regulation."

No. 16-17—LEGIS. F. 17-03, DATED BANGALORE, 18TH AUGUST 1903.

ORDER THEREON—Ordered that the Regulation to provide for the recovery of loans made to Agricultural Banks by Government, which received the assent of His Highness the Maharaja on the 14th day of August 1903, be promulgated.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Compiler, *Mysore Gazette*, with a copy of Regulation No. II of 1903, for publication in three successive issues of the Gazette, and for supply of 50 spare copies of the Regulation to this office and 50 to the Revenue Commissioner in Mysore.

Copy to the Revenue Commissioner in Mysore.

L. B. B MUNICIPAL.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 959-140, dated the 20th May 1903, from the President of the Municipalities in the Shimoga district, stating with reference to Government Proceedings No. 7098-7100—L. F. 10-93, dated 8th November 1902, that the question of retrenchment of expenditure in the Shimoga Municipality was discussed by the Board and the reduction of Rs. 140 a month or Rs. 2,180 a year, including the pay etc. of Jail guards amounting to Rs. 500 under establishment charges as noted below, was resolved upon, that if the villages, especially those on the road-side within a radius of five miles, were included within the limits of the Shimoga town for the purpose of levying Octroi, the revenue under this head might be improved, and that the Superintendent of the Government Gardens has given his suggestions for the planting of trees in the Kumbargundi, and that effect will be given to his suggestions.

Budget head	Establishment proposed for reduction			
	Designation	No.	Rate of pay	Total for a month
			Rs. a. p.	Rs. a. p.

	Total reduction for a year ..			2,180 0 0

No. 517-18 – L. F. 137-02, DATED BANGALORE, 1ST AUGUST 1903.

ORDER THEREON.—Government are pleased to sanction the reductions proposed above, with effect from 1st July 1903, with the observation that the reduced rate of pay will be drawn by the successors of the present midwife, who will as a special case continue to draw Rs. 30 per mensem during her employment in the Municipality. The savings thus effected should be spent on town improvement.

2. The President is requested to report whether the services of the Shimoga midwife are freely availed of by the rural population of the Shimoga Taluk, and if so, whether the District Fund Board are willing to bear a moiety of pay of the said midwife. A copy of their resolution with his remarks, if any, should be submitted for the orders of Government.

3. The Board propose to reduce the pay of the head gardener from Rs. 8 to 7 per mensem, but the President considers that the retention of the present rate of pay is necessary on the ground that a good gardener cannot be had for less than Rs. 8 per mensem. The Government approve of the proposal to continue the existing rate till such time as a competent man can be secured for the reduced rate fixed by the Board.

4. The inclusion of villages within a radius of 5 miles of the Shimoga town, within the Municipal limits, is not possible. Endeavour should be made to improve the Octroi revenue without introducing any innovation not permitted by the rules.

5. Effect should be given to Mr. Cameron's suggestions to plant such trees in the Kumbargundi as may help to draw off moisture and improve the healthiness of the locality.

H. V. NANJUNDAYYA, *Secy. to Govt., Gen. & Rev. Depts.*

To—The President of the Municipal and District Fund Boards, Shimoga District.
The Comptroller to the Government of Mysore with a copy of the proposition statement.

Statement showing the existing establishment, reduction proposed and the establishment that will remain after reduction in the Shimoga Municipality, prepared as per Government Proceedings No. 7098-8000 – L. F. 10-1893, dated 8th November 1902.

No. 629-30—L. F. 17-96, Dated Bangalore, 5th August 1903.

Order.—Government having noticed in one of the recent communications from the President, Municipal Commission, Bangalore City, a misapprehension regarding the tenure of office of the Municipal Commissioners appointed by them otherwise than in pursuance of an election, resolve to elucidate the law on the subject as follows:—

Commissioners appointed by Government (otherwise than in pursuance of an election) are entitled under Section 3 of the Municipal Regulations to hold office for three years. Commissioners elected and accordingly appointed under Section 5 are entitled to be in office for two years only. There is thus a distinction between nominated and elected Commissioners, the tenure of office of the former being three years and that of the latter two. The Notification No. 5973-4—L. F. 17-96, dated the 24th November 1896, deals chiefly with elections. A Commissioner appointed under Rule XI thereof stands in the position of an elected Commissioner and vacates his office at the end of two years from the date of his appointment or as soon as his successor is declared elected in his stead at the next general elections. Likewise an appointment made under Rule XIII to fill up a vacancy among elected Commissioners endures only during the unexpired portion of the period for which the member vacating the office could ordinarily have remained in office. In other words, the Commissioner thus appointed ceases to be a Commissioner at the end of two years from the date on which the person whose place he has taken, was appointed by election.

H. V. NANJUNDAYYA,
Secy. to Govt. Gen. & Rev. Depts.,

To—The President, Municipal Commission, Bangalore City.
The President, Municipal Commission, Mysore City.

READ—

The following communications from the Presidents of Municipalities and the Comptroller, submitting the Municipal Administration Reports and Accounts for the year 1901-02 :—

14	743	19th February 03 ...	Do Mysore do
15	160	28th February 03 ...	The President of the Municipal Commission, Mysore City.
16	815	27th January 03 ...	The Comptroller, Mysore Government.

No. 533-571—L. F. 31-02, DATED BANGALORE, 3RD AUGUST 1903.

ORDER THEREON.—The number of Municipalities during the year under review remained the same as in 1900-01, *viz.*, 124. But the limits of one of them, *viz.*, Chitaldrug, were extended by the inclusion of the villages of Kelgote and Kavadigarhatti, situated close to the town, under the authority conveyed in Proceedings No. 2612-4—L. F. 47-00, dated 12th August 1901.

2. The classification of the Municipalities in respect of their population is given in the following abstract statement :—

Population.		Number of Towns.
Number of Municipalities with a population of	1,000 and below	1
Do	more than 1,000 but less than 3,000	62
Do	more than 3,000 but less than 5,000	29
Do	more than 5,000 but less than 7,000	19
Do	more than 7,000 but less than 9,000	5
Do	more than 9,000 but less than 11,000	4
Do	more than 11,000 but less than 13,000	2
Bangalore City with a population of	69,447	1
Mysore City do	68,111	1
	Total ...	124

3. The strength of the Municipal members in the several Municipalities as it stood at the end of the year is shown in the following abstract statement. Except in the two Cities of Bangalore and Mysore which are governed by special Regulation

and which enjoy the privilege of electing half the total number of members, Municipal affairs were managed by Committees consisting of *ex-officio* and nominated members appointed by Government :—

No.	Municipal District.	No of Municipalities.	Members.			Total at the end of 1901-02.
			Ex-officio.	Nominated.	Elected.	
1	Bangalore City	1	6	5	9	20
2	Mysore do	1	6	4	10	20
3	Bangalore District	16	32	100	...	132
4	Kolar do	11	30	80	...	110
5	Tumkur do	18	36	104	...	140
6	Mysore do	15	28	78	...	106
7	French Rocks Sub-Division	10	17	53	...	70
8	Hassan District	14	40	85	...	125
9	Shimoga do	14	38	98	...	136
10	Kadur do	8	33	61	...	94
11	Chitaldrug do	15	23	99	...	122
12	Sringeri Municipality	1	4	5	...	9
	Total ...	124	294	772	19	1,084

The elected members in the Bangalore City were less than half the total number as no one offered himself for election for the High Ground (No. 1) Division and one was appointed by Government.

4. *Meetings.*—In the City of Bangalore 11 ordinary and two adjourned special meetings and in the Mysore City 12 ordinary and seven adjourned meetings were held during the year, while in the non-regulation Municipalities monthly meetings were regularly held, except in the marginally noted places where the deficiency was due chiefly to the prevalence of plague or want of quorum. The attendance on the whole was good.

5. *Finance.*—The opening balance at the credit of the Municipalities on the 1st July 1901 was Rs. 3,15,233. The revenue and expenditure, exclusive of the suspense items, loans, etc., both on the side of receipts and expenditure, were in excess of those of the previous year as shown in the following statement :—

Items of Receipts	Amount 1901-02	Amount 1900-01	Items of Expenditure	Amount 1901-02	Amount 1900-01
	Rs.	Rs.		Rs.	Rs.

			Repayment of Plague Funds ...	135	4,048
Total ...	1,04,610	67,615	Improvement of sanitation ...	27,298	22,307
			Total ...	1,16,103	1,11,363
Grand Total ...	7,79,162	7,25,711	Grand Total ...	7,63,340	7,44,397

The largest revenue was contributed by the Cities of Bangalore and Mysore. In the other Municipalities the revenue ranged between Rs. 476, lowest, in Nagar and Rs. 21,962, highest in Chikmagalur.

6. *Octroi.*—The following abstract statement exhibits the articles subjected to Octroi in 1901-02, and the revenue realized therefrom as contrasted with that of the previous year. There was a considerable fall of revenue from this source in the Districts of Bangalore and Hassan as well as Chitaldrug, due to the outbreak of plague, while in the remaining Municipalities there was a marked improvement resulting in a net increase of Rs. 14,449 attributable both to the new introduction or extension of Octroi taxation and to better collection :—

No.	Details.	Amount.	
		1901-02.	1900-01.
		Rs.	Rs.
1	Cocoanuts, fresh	20,172	18,568
2	Do dry	3,753	3,787
3	Betel leaves	22,280	20,418
4	Sugar	8,296	7,161
5	Jaggory	8,459	7,658
6	Ghee	8,609	8,253
7	Butter	334	163
8	Sheep, goats, etc.	11,667	11,216
9	Oil and oil-seeds	14,602	14,185
10	Timber, teak, etc.	11,056	8,854
11	Tobacco	17,753	18,629
12	Cloths	18,066	72,935
13	Other items	1,821	2,592
	Total ..	2,08,868	1,94,419

7. *Other taxes.*—During the year 1901-02, Rs. 341,980 was realized from the marginally noted taxes as against Rs. 3,37,938 of the previous year. The realizations from house and mohatarfa taxes as well as tolls, tax on carts and carriages, suffered considerably from the prevalence of plague, whereas better collections contributed to a large increase under other heads.

No.	Items.	Amount.	
		1901-02.	1900-01.
		Rs.	Rs.
1	House and lighting taxes	1,83,962	1,65,251
2	Mohatarfa	94,112	99,292
3	License receipts ...	31,127	30,360
4	Carriage tax ...	301	661
5	Tax on animals ..	916	1,076
6	Tolls	39,558	40,387
7	Water tax	12,004	909
	Total ...	3,41,980	3,37,938

8. *Incidence of taxation.*—The revenue from taxation including Octroi and tolls was Rs. 1,41,643 in the Bangalore City, Rs. 1,14,226 in the Mysore City and Rs. 2,94,979 in other Municipalities. The population according to the last Census being taken as the basis of calculation, the incidence of taxation comes to Rs. 2-7-6 in the Bangalore City, Re. 1-10-10 in Mysore and Re. 0-10-5·54 in other towns against Re. 1-12-9, Re. 1-9-6 and Re. 0-10-7 respectively, of the previous year. The increased incidence in the Bangalore City was chiefly due to the increased revenue from water-tax and that in the Mysore City to better collections under Octroi and House taxes.

9. *Demand, Collection and Balance.*—The total demand including the arrears of previous years amounted to Rs. 9,04,663 as given in the reports. Of this, only Rs. 6,53,225 was collected leaving a balance of Rs. 2,51,498 or Rs. 27·8 per cent uncollected at the end of the year. The figures under Collection do not tally with the detailed statement of receipts furnished by the Comptroller, who is therefore requested to take early steps to rectify the errors.

10. *Incidence of total Revenue.*—Taking therefore the total revenue under all heads, exclusive of debit heads as Rs. 6,74,552 according to the Comptroller's statement with a total population (589,479) the incidence was Re. 1-2-3·7 per head of population, of which Re. 0-7-7·9 was from Octroi tax, license receipts, tolls and tax on carriages and animals, Re. 0-7-3·6 from house, mohatarfa and water taxes and the rest from market rents, fines for breach of Municipal rules and miscellaneous sources.

11. *Expenditure, Percentage of charges to total receipts.*—Out of the total revenue of Rs. 6,74,552 collected, Rs. 6,46,957 or 95·90 per cent was spent during the year raising the balance of Rs. 3,15,233 at the beginning of the year to Rs. 3,31,055 at the end thereof. Out of this expenditure 14·27 per cent was spent on general administration including registration of births and deaths and collection charges, 27·77 per cent on conservancy and sanitation, 26·12 per cent on roads, drains, wells and other public works and 8·27 on charitable grants, 7·63 on lighting, 5·94 on education and the rest on miscellaneous charges.

12. *III. Collection.*—In the Kolar and Bangalore Districts the arrears of remuneration due to the village servants for the collection of house and mohatarfa taxes was paid during the year and in the Districts of Tumkur and Hassan payments for commission were made, while no such payments were made in the previous year.

13. *Conservancy.*—A much larger expenditure was incurred during the year 1901-02 than in the previous year on conservancy and sanitation of the towns, the employment of additional hands and conservancy carts and additions to the existing establishments having contributed to the increase. A sum of Rs. 27,298 was expended in the City of Mysore on special sanitary works, *viz.*, improvement of the congested parts.

14. *Village Sanitation.*—Except in the Bangalore and Mysore Cities which are governed by a special Regulation, the rules under the Village Sanitation Regulation continued to be in force in all the Municipalities. A larger number of cases are reported to have been brought up before the Magistrates and to have contributed to bettering the sanitary condition of these places. The Shimoga District reports that the Sanitary Regulation and Rules enable the local authorities to better the sanitation of private lands also.

15. *Registration of births and deaths.*—Special registration offices for recording births and deaths were maintained in the premier Municipalities of the Bangalore and Mysore Cities, but in the remaining Municipalities the work was, as usual, done by the patels and shanbhogs. No explanation is given in the report of the Bangalore City for the increase in the cost of Rs. 879 under the head, but in Mysore, the increase of Rs. 8,453 was due to the cost for the whole year of the Health Office, etc., having been debited to Municipal Funds in 1901-02 against a portion only of the previous year's charge.

The number of births and deaths registered in all the Municipalities was 11,417 and 23,608 against 11,226 and 23,977 respectively, of the previous year as shown in the following statement :—

No.	Municipal District.	Births.		Deaths.	
		1901-02.	1900-01.	1901-02.	1900-01.
1	Bangalore City	1,833	2,119	4,563	5,213
2	Mysore do	1,207	1,418	5,391	7,783
3	Bangalore District	1,826	948	3,345	1,699
4	Kolar do	1,403	907	1,408	901

	Total ...	11,417	11,226	23,608	23,977

16. *Lighting.*—During the year 1901-02 lighting arrangements were made in 111 towns at an aggregate cost of Rs. 49,370 against 108 and Rs. 48,402 respectively, of the previous year, the three Municipalities into which lighting was newly introduced being Kyatasandra in the Tumkur District, Kalale in the Mysore District and Grama in the Hassan District.

17. *A. Public Works.*—The details of expenditure incurred on public works by the Municipal agency during the year 1901-02 as well as on supervision charges are shown in the Comptroller's statement No. VI, of which an abstract is given below :—

Budget head.		Amount.	
		1901-02.	1900-01.
		Rs.	Rs.
	(*a*) Supervision	19,713	18,723
Roads ...	(*b*) Original	15,123	30,165
	(*c*) Repairs	39,265	45,625
Drains ...	(*d*) Original	29,203	28,714
	(*e*) Repairs	7,353	7,507
Water supply .	(*f*) Original	7,707	5,984

Buildings ..	(*h*) Original	1,517	4,184
	(*i*) Repairs	3,496	3,067
	(*j*) Road watering	1,525	993
Other works ..	(*k*) Original	2,977	9,237
	(*l*) Repairs	891	1,349
	(*m*) Compensation	15,413	14,064
	(*n*) Temporary survey establishment ...	.	...
	(*o*) Tools and plant	759	975
Opening out a feeder channel	... ..	6,296	..
Improvement of sanitation of the Kolar Town	... ...	337	...
	Total ..	1,56,413	1,75,957

18. It is observed that except in the Cities of Bangalore and Mysore and a few other important Municipalities, where fixed establishments were maintained for the supervision of works executed in them, the supervision charges debited to the Municipalities consisted of contributions towards the salaries of Work Inspectors maintained in the several taluks to which they belong.

19. From the Comptroller's Financial Statement No. 2, it appears that during the year under review, Rs. 18,841 were spent for the improvement of drinking water supply, Rs. 15,750 on payment of compensation on account of lands and houses acquired for opening out congested parts, Rs. 19,944 on roads and drains and Rs. 5,013 on buildings against Rs. 11,354, Rs. 1,406, Rs. 1,12,011 and Rs. 7,251 respectively, of the previous year.

The above figures do not include the expenditure of Rs. 12,492 incurred on special sanitary works executed by the Public Works Department (Sanitary) in the Municipalities of Kolar, Tarikere and Chitaldrug and Rs. 27,298 on the improvement of the congested parts of the Mysore City Municipality made out of the loan advanced from the State Funds.

20. During the year under review, Rs. 7,704 was expended against Rs. 5,984 of the previous year on fresh works in addition to the expenditure incurred on improvement of the existing sources of drinking water-supply in the several Municipalities of the State. The supply of water is reported to have been sufficient in Municipal towns generally. But in Chitaldrug, cosiderable difficulty was felt owing to scanty rains. Temporary wells were sunk in Thimmanayakankere and in the *Vaddu* below it, and the water available was pumped up and supplied to the town.

21. *Charitable Grants.*—The appended statement exhibits details showing the number of Medical institutions supported from Municipal Funds, the cost incurred thereon and the number of patients treated in 1901-02, as compared with those of the previous year. The expenditure incurred during the year was Rs. 53,452 according to the Comptroller's account, but the reports of Presidents only show a sum of Rs. 38,752 under this item. The discrepancy should be rectified by the Comptroller in communication with the Presidents concerned and the result reported for the information of Government. The increase under this head in the Bangalore City was due to the major portion of the dieting charges of the Epidemic Diseases Hospital of 1900-01 having been paid out of the Plague Funds, while the full cost for 1901-02 was debited to Municipal Funds and the increases in the Kolar, Tumkur, Shimoga and Kadur Districts were chiefly due to the contribution made towards the cost of construction and repairs of dispensary buildings.

22. *Dispensaries.*—According to the figures furnished in the reports, the number of Medical institutions that remained at the end of the year was 74, for the maintenance of which Rs. 38,752 was spent from Municipal Funds during 1901-02 against Rs. 31,403 in the previous year. The number of patients treated was 684,907 against 641,844 in the previous year:—

No.	Municipal District.	1900-01.			1901-02.		
		No.	Cost incurred.	Patients treated.	No.	Cost incurred.	Patients treated.
			Rs.			Rs	
1	Bangalore City	8	15,546	44,605	5	21,580	60,501

	Total ...	76	31,403	6,41,841	74	38,752	6,84,907

23. *Vaccination.*—The Municipalities of Bangalore, Mysore, Seringapatam, Hassan and Kolar alone maintained special establishments for the vaccination work, the duty being performed in other places by the taluk vaccinators employed at the cost of Provincial Funds and by Hospital Assistants in charge of Local Fund Dispensaries. The following abstract statement shows the particulars of the number of persons vaccinated in the several Municipalities as compared with that of the previous year:—

No.	Municipal District.	Number of persons vaccinated in 1901-02.			Number of persons vaccinated in 1900-01.
		Primary.	Re-vaccination.	Total.	
1	Bangalore City	1,264	134	1,398	2,830
2	Mysore do	...	...	1,582	1,712

12	Chitaldrug	1,021	27	1,048	959
	Total ..			12,678	15,753

24. *Maternity.*—The Regulation Municipalities maintain the Bangalore Maternity and Her Highness the Maharani's Hospital at Mysore respectively, and the remaining District Head-quarter Municipalities have dispensaries for women and children established in them, while the Minor Municipalities contributed towards the cost of midwives appointed for taluks and sub-taluks. The total number of cases attended to in the above institutions and by the midwives during the year amounted to 30,177 as shown in the following abstract statement :—

No.	Municipal District.	Cost incurred in 1901-02.	No. of cases treated in—	
			1901-02.	1900-01.
1	Bangalore City Maternity	2,400	14,523	13,895
2	Mysore City H. H. the Maharani's Hospital	2,683	11,595	11,757

10	Kadur do . ..	180	356	405
11	Chitaldrug do	854	463	553

25. *Education.*—The Bangalore City Municipality alone maintained the City Municipal English School, Kannada Boys' School and Chamrajendrapet Anglo-Vernacular School, besides making grants-in-aid to Sanskrit College and to a few indigenous schools. The other Municipalities only made grants or contributions to schools situated in them. The following statement exhibits the number of schools, the number of pupils, the fees realized and the number of candidates who passed the Lower Secondary examination during the year:—

No.	Municipal District	Number of schools.	Number of pupils.		School fees realized.	Expenditure incurred from Municipal funds.	Examination passed (Lower Secondary).
			On roll.	Average attendance			
					Rs. a. p.

12	Sringeri Town	...	..	...	.. ...	..	...
13	Chitaldrug District	28	2,027	1,483	.....	970	24

26. *Miscellaneous.*—The details of expenditure under this head are shown in the Comptroller's Statement No. 8, of which the aggregate results are given below. Almost the whole increase under this head was due to the maintenance of the Vani

Vilas Water Works in the Mysore City being transferred from State to Municipal Funds :—

No.	Items.	Amount for—	
		1901-02.	1900-01.
1	Refunds	825	176
2	Cattle pounds	5,470	5,346
3	Rewards to dog and snake killers	725	1,308
4	Fairs and festivals	3,648	5,464
5	Gardens	3,932	5,141
6	Purchase of plant	92	
7	Tools and plant	14	
8	Law charges	566	187
9	Contribution	1,026	931
10	Fire protection	...	23
11	Pension charges	454	508
12	Gratuity	737	64
13	Water Works	22,634	9,667
14	Cholera charges	18	1,831
15	Other items	9,918	9,306
	Total ...	50,059	39,952

27. *Rewards to dog and snake killers.*—The aggregate expenditure incurred on this account during the year 1901-02 fell from Rs. 1,308 to Rs. 725. Many of the reports do not give the sums spent and the number of noxious animals killed, and there are discrepancies between the President's and the Comptroller's accounts in some cases. Proper information should be furnished in future reports on these matters.

28. *Gardens.*—It has been reported that the Municipal Parks at Kolar, Sidlaghatta, Chikmagalur, Kadur and Tarikere and the gardens in the Municipalities in the Shimoga District as well as at Hosamane in Chikmagalur were thriving well. Information should be supplied about the state of the gardens and the expenditure incurred on them in other reports also.

29. *Repayment of loans.*—The sums debited in 1901-02 to Municipal Funds towards the repayment of loans advanced by Government were Rs. 40,299 on account of principal and Rs. 14,783 on account of interest against Rs. 42,987 and Rs. 11,461 respectively, of the previous year. It would appear from the statement of loans furnished by the Comptroller that the total amount of loans outstanding at the end of the year 1900-01 was Rs. 3,60,591. Deducting therefrom the recoveries made during the year, the balance to be adjusted at the end of the year was Rs. 3,20,292.

30. *General remarks.*—Government regret to notice that the reports and accounts for 1901-02 with the exception of the reports of the Sringeri Municipality and of the Chitaldrug District were not received on or before the due date, *viz.*, 30th September 1902, and that the information contained in some of them was not complete, thereby necessitating further correspondence resulting in a much avoidable delay in reviewing these reports. As it is of the utmost importance that reviews and reports on the working of the Municipalities should issue as early as practicable after the expiration of the year to which they relate, the Presidents and the Comptroller are requested to submit their future reports and accounts punctually so as to reach this office not later than the 30th September of the year following that to which they relate.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Presidents of the Municipalities in the State.
The Comptroller to the Government of Mysore.
The Chief Engineer of Mysore.
The Inspector General of Education in Mysore.
The Senior Surgeon and Sanitary Commissioner with the Government of Mysore.
The other Heads of Departments.

8. *XI Miscellaneous (a) Repayment of loan.*—As the Municipality has been excused from payment of principal and interest for two years towards the liquidation of the debt due to Government, the sum of Rs. 640 entered under this head will be disallowed. This makes up the deficit to a considerable extent.

9. The other items call for no remarks.

10. The budget estimates of receipts and expenditure of the Municipality for 1903-04 are sanctioned as per details given in the accompanying appendices. An abstract result is given below :—

	Rs.
Opening balance	—2,318
Receipts	9,190
Total ..	6,872
Deduct expenditure	6,225
Closing balance	647

Government Proceedings No. 18340-2—L F. 430-92, dated the 19th May 1902, directing that license to build be granted in the case of all the vacant sites in the Bangalore City detailed in Schedule A appended and calling for the opinion of the Senior Surgeon and Sanitary Commissioner, regarding the desirability or otherwise of permitting the erection of buildings on the 36 sites detailed in Schedule B.

2. Correspondence ending with letter No. G. 443—2, dated the 27th May 1903—11th July 1903, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, submitting his opinion regarding the 36 sites above referred to.

No. 655-7—L. F. 430-92, DATED BANGALORE, 6TH AUGUST 1903.

ORDER THEREON.—Government are pleased to direct that in regard to the 36 vacant sites in the Bangalore City detailed in Schedule B appended to Government Proceedings No. 18340-2—L. F. 430-92, dated the 19th May 1902, licenses to build on the whole or portions of the sites be granted or refused in accordance with the instructions given in the remarks column of the statement hereto appended, which are in accordance with the Sanitary Commissioner's opinion.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The President, Municipal Commission, Bangalore City, returning the enclosures received with his letter No. 146, dated the 28th November 1902.

The Chief Engineer in Mysore.

The Senior Surgeon and Sanitary Commissioner with the Government of Mysore.

B—List of vacant sites in the Bangalore City about the building of which there is difference of opinion between the President of the Bangalore City Municipality and the Superintending Engineer of Sanitary Works.

Serial No.	Name of street.	Door No.	Name of owner.	Remarks of the Superintending Engineer of Sanitary Works.	President's final remarks.	Senior Surgeon's opinion.
				No. I—Palace Division.		
1 2	Dodda Upparahalli	22 23	Gurumurthappa ...	Should not be built upon but reserved for a road way.	House Nos. 22 and 23 to which these vacant sites were attached are now demolished. The road is already formed and is wide enough. The sites may be built on.	May be built upon, reserving portion for connecting the existing lanes.
3	Dobbspete ...	26	....	May be built on after reserving a portion for continuation of A street.	May be built on ..	I agree with the Superintending Engineer.
				No. II—Balepete Division.		
4	Subedar chattram road, Balebagal.	...	(Municipality) ...	Not required now ..	Reserved for fountain ...	May remain open.
5	Kilari road ...	134	Doddagiriyappa ...	A house has been built; passage leading to it two feet wide.	There is another passage to this house on the east wide enough.	Besides the second passage referred to by the President, the house has an open yard in front. It may remain.
	....	207	Settishamannah ...	Is surrounded by houses and should be reserved, but Overseer says permission to build has been given.	A lane has been opened and part of the reserved land taken up. The remaining portion may be built on.	I agree with the President.
6	Basavanna's temple street	...	Municipality ...	Reason for reserving not apparent If street is widened it should be on the opposite side.	This is a small strip of land and should be reserved, as building thereon interferes with approach to adjoining houses.	Should be reserved.
7	Huriyopett .	...	Ditto ...	Reason for reserving not apparent.	Should be reserved as locality here is overcrowded.	A road has been opened recently to the west; so this open space is not necessary. It may be sold to the neighbouring land owners so that they may improve their houses.

8	Gundopanth's galli ...	4/3	Kollam Raghunatha Rao.	Is a large plot used as a garden, would be an advantage if retained, but no valid reason can be given for refusing building licenses.	Mr. Lee's remarks apply to the garden land inside the chattram whereas the President's remarks apply to the triangular portion outside the chattram compound, and this should be reserved.	The garden as well as the triangular piece referred to by the President should be kept open.
9	Purnasheshachar's do.	18	Janoosa ...	Reason for reserving not apparent.	Locality overcrowed, no ventilation; should be reserved.	It may be built on, provided plans are approved of.
10	Kasivisweswara gudi galli.	33	Municipality ...	Ditto ..	Site not identified.	Cannot be built over.
11	Taluk Cutcherry road.	427	Bale Matt yard ...	The compound of a Matt. Reason for reserving not apparent.	Buildings all round. No open space. Should be reserved.	No further building should be made.
12	Pinjar galli ...	17	Fakrodeen Saib ...	Reason for reserving not apparent.	Narrow strip seven feet wide. Portion marked for road. Locality overcrowded. Should not be built upon.	Cannot be built on.
13	Taluk Cutcherry road.	413	Papanna ...	Ditto ...	This is now enclosed. But as there is no open space for this house, it should not be built on.	If No 413 is pulled down, the vacant space between it and No. 412 may be utilized for building a good house on approved plan.
14	Aralepete ...	27	Muniyappa ...	Ditto ..	Buildings all round. Approach three feet wide. Part only may be built.	I concur with the President.
15	Ganigar Pillannana galli.	25	Ramaiya ...	Is the compound of a house. Reason for reserving not apparent.	This is now enclosed, but as there is no open space for this house, and the locality is overcrowded, part only to be built.	I agree with the President, part only may be built.
16	Gejje Basetti galli ..	...	Private, several parties.	Reason for reserving not apparent.	A very narrow strip between two buildings. Should not be built, as the locality is overcrowded.	The President's opinion is "quite right."
17	Police galli ...	16	Ramakka ...	Shed has been erected .	No shed now. Locality overcrowded. should be reserved.	Should be reserved as the locality is overcrowded.
	....	1/7	Neelachar ...	Lane leading to this site is only five feet wide.	May be built on.	May be built upon in line with house No. 26.
18	Baily Srinivasa Rao's galli.	16	Tigalar Periyanna.	Approach to this site is three feet wide and it should therefore not be built on.	This is situated behind the mutton market. There is no approach on the south (from Mysore road). A road ten feet wide passes to the west; may be built on.	Which land is meant is not clear. If it is the present garden, it may be left vacant.

B—List of vacant sites in the Bangalore City, etc.—*concld.*

Serial No.	Name of street.	Door No.	Name of owner.	Remarks of the Superintending Engineer of Sanitary Works.	President's final remarks.	Senior Surgeon's opinion.
			No. IV—Alsurpéte Division.			
19	Cubbon road ...	28	Naranappa ...	Reason for reserving not apparent.	May be built, leaving some open space.	I agree with the President.
20	Sanjivanayakana galli	37	Sanjiva Naik ...	Reason for reserving not apparent, as other similar sites have been built on up to front of road way.	A portion has been marked for fountain, but no fountain has been built. One is needed in this street, as there is none now. The locality is overcrowded and the lane to the east is narrow. Only a portion may be allowed to be built.	May be built on leaving 20 feet to south, 12 feet to west and 8 feet to east.
21	Sanjivappana galli ...	7	Municipality ...	As above.	A big rock in front of house No. 7. If built, no open space will be available for air and light to house No. 7, which at present is ill-built.	Cannot be built upon.
22	....	39	Venkatramana ..	Reason for reserving not apparent.	May be built leaving some open space, as there is none now.	May be built on provided 16 feet is left to the west.
23	Mohadeen Saib's galli	5	Latchmakka ...	Is a vacant site between two houses. Reason for reserving not apparent.	May be built on, leaving some open space.	I concur with the President.
24	Anjaneya's temple street.	95	Venkatsamappa ...	Is the front yard of a house in a broad street. Reason for reserving not apparent.	Locality overcrowded. If the sites are built upon, no open space for air and light will be left.	Nos. 24, 25 and 33, *i. e.*, site Nos. 95, 96 and 97 may be built on as one house, provided the remaining portions of old houses on the back are pulled down.
25	....	96	Oograppa ...	Similar to No. 95 ...		
26	Sunnakal street ...	1	Municipality ...	Similar to No. 95 ...	Box-drain passes from north to south in the middle of the site. Should be reserved	Cannot be built over.
27	....	49	Timmi ...	Is a building site. Reason for reserving not apparent.	If built on, no open space will be available for the house for light and air.	She may be allowed to build on No. 50, leaving space of eleven feet between that and No. 49.

28	Annammanagudi galli	20	Nanjundasamy ..	Present building may be brought forward.	Not to be built on.	May be brought forward as recommended by the Superintending Engineer.
29	Narasimha Joisera do.	A/1	Munisawmi ...	Is a valuable building site by side of road. Reason for reserving not apparent.	May be built on, leaving some open space.	I agree. Passage to back yard to be left.
30	Ganigars' galli (B) ...	6	Koti Marisamanna.	Similar to No. 1 above ...	Locality overcrowded. Better to reserve.	I think he may be allowed to build on, provided sufficient space is left for conservancy purposes on the west and south.
31	Appaji Rao's galli ...	20	Vasudeva Rao ...	Similar to No. 1 above ..	Building, if permitted, will shut up buildings behind. No open space. Locality overcrowded.	May be built on, leaving nine feet to the south.
32	....	28	Municipality ...	Is reported to be private property. If so, need not be reserved.	Part, *viz.*, nine feet is said to have been acquired for opening conservancy lane. Remainder may be built on.	May be built on.
33	Anjaneya's temple street.	97	Venkatramanappa. Oograppa ...	Is front yard of a house. Reason for reserving not apparent.	Locality overcrowded, and if built, no open space will be left for the house.	See remarks against Nos. 24 and 25.
34	Ganigar galli ...	18	Aswathkatte ...	Portion build on with permission.	There is no building recently permitted here.	Certainly not.
35	Byatappa's galli ...	28	Byatappa ...	Is site of a large house ruined, nine feet in width required for widening lane.	Narrow lanes surround this site on three sides and conservancy lane is proposed to be opened on the other. The Committee appointed to inspect sites of demolished houses, has decided that this should not be built.	I see no reason why the owner should not be allowed to build provided he leaves nine feet space on the south and sufficient space on the north for conservancy purposes.

No. V—Nagarthapete Division.

36	Kumbargundi galli ...	1	Private ...	Reason for reserving not apparent. Similar reserved sites have been built on with permission.	May be built on, after reserving the portion marked for road.	I agree with the President.

READ.—

Letters Nos. 793 and 15, dated the 6th May 1902 and 7th July 1903, from the President of the Municipalities in the Kadur District, requesting that the Vice-President of the Chikmagalur Municipality may be empowered to take coercive processes for the recovery of Mohatarfa tax, which has fallen much into arrears, as such powers have been given to the Vice-President of the Tumkur Town Municipal Board in Government Proceedings No. 12957-65—L. F. 295-96, dated the 30th May 1900

No. 848-855—L. F. 295-96, DATED BANGALORE, 18TH AUGUST 1903.

ORDER THEREON.—The order of the 30th May 1900 above referred to is one of general applicability, and no separate orders in regard to the Chikmagalur Municipality are, therefore, required.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The President of the Municipalities in the Kadur District.
The Presidents of Municipalities in the other Districts, for information.

READ—

Letter No. 1172, dated 18th—26th May 1903, from the President of the Municipalities in the Mysore District, submitting the budget estimates of the several minor Municipalities in the District, exclusive of the French Rocks Sub-Division, for 1903-04.

No. 642-54—L. F. 16-1903, DATED BANGALORE, 6TH AUGUST 1903..

ORDER THEREON.—The receipts and expenditure of the Municipalities as estimated for 1903-04 are shown in the following abstract statement:—

RECEIPTS.

2. *I. Octroi.*—In Chamrajnagar, Gundlupet and Nanjangud larger quantities of cloth are expected to be imported into them, while the import of jaggery in Hunsur is expected to fall much shorter than in the previous year. This accounts for the

variations under these sub-heads. But the cause of decrease under green cocoanuts in Nanjangud should have been explained. The estimate will however be allowed.

3. *II. House and VII. Mohatarfa taxes.*—The estimates under these heads stated to have been based on the jamabandi figures of 1901-02, are allowed to stand, but the President should explain the cause of increase in jamabandi under house tax in Gundlupet and of decrease under cart tax in Hunsur, shop tax in Sargur and house tax in Periyapatna.

Municipalities	Estimates	
	Proposed	Sanctioned
	Rs.	Rs.
1. Hunsur	2,647	1,873
2. Chamrajnagar	2,407	2,618
3. Yedatore	1,001	1,211
4 Heggaddevankote	277	328
5. Sargur	883	187
6. Gundlupet	906	967
7. Nanjangud	3,243	1,984
8. T.-Narsipur	86	120
9. Sosale	278	808
10. Saligram	2,090	1,450
11. Mirle	150	130
12. Periyapatna	1,269	1,218
13. Bannur	752	877
14. Kakole	295	767
15. Talkad	1,455	1,085
Total ...	17,165	15,208

4. *Opening Balance.*—The estimates under this head will be modified as particularized in the margin with reference to the actual balance on 1st July 1902, as per Comptroller's final accounts for 1901-02, and the sanctioned estimates for 1902-03.

EXPENDITURE.

5. *IV. Conservancy*—The budget statements No. I of Heggaddevankote and Sargur provide for the hire of a conservancy cart at Rs. 15 per mensem for the removal of daily sweepings, but the provision has been omitted in the detailed statements No. III. The omissions will be supplied and the provisions passed. The following discrepancies are also observable in the provisions under this head as shown in the detailed budget statements No. III, and in the abstract statements No. I. The figures shown in columns 7 and 8 will be adopted in the present budgets with the observation that greater care should be bestowed on the preparation of these statements :—

Municipalities.	Sub-head in the Budget.	Proposed.				Sanctioned.	
		1902-03.		1903-04			
		As given in statement No. I.	As given in statement No. III.	As given in statement No. I.	As given in statement No. III.	1902-03	1903-04.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1. Gundlupet ...	(a) Establishment	1,176	816	1,176	816	816	816
	(b) Other charges	58	416	36	416	416	396
2. T.-Narsipur ...	(b) Do	...	10	10	10	..	10
3. Saligram ...	(a) Establishment	504	524	504	524	504	504
	(b) Other charges	16	16	160	16	16	16
4. Talkad ...	(b) Do	5	5	40	30	5	30
5. Sosale ..	(b) Do	...	15	...	15	...	15

6. *VII. Lighting.*—The provision made in the budget of Periyapatna for the purchase of new lamps accounts for the increase proposed under this head. The provision is allowed with the observation that what portion of the lump sums of Rs. 110 and 48 entered in this and the Hunsur budgets for the purchase and repair of lamp posts is required for new posts and how many lamps are proposed to be purchased, should have been specified. The correct amounts which should be provided in the

present budgets of Periyapatna and Kalale are Rs. 300 and 170 respectively as per details given in the budget statements No. III and not Rs. 350 and 230 as erroneously entered in the budget statements No. I. Correct figures will be adopted for 1903-04.

7. *VIII. Public Works.*—To wipe off the debit balances against Sargur, Saligram and Talkad, the provisions made for works will be reduced as shown below:—

Items.	Sargur.		Saligram.		Talkad.	
	Proposed.	Sanctioned	Proposed.	Sanctioned	Proposed.	Sanctioned.

(f) Water-supply, original	...	...	600	600	...	...
(o) Reserve	...	..	68	68	100	100

8. *VIII. Public Works (b) to (o) Works.*—The budget statement No. II, which is intended to show only details of public works, contains in some cases provision for supervision establishment charges also, and statement No. III of Chamrajnagar, in which details of works ought not to have been entered, but only of establishment charges, contains provision for public works also, and the totals of supervision charges as given in statement No. III do not correctly represent the abstract estimate embodied in statement No. I. The necessary alterations will be made and correct figures as per detailed statements will be adopted in the present budgets.

9. *VIII. Public Works (a) Supervision.*—The provisions made under this head on account of supervision charges in statement No. I, do not correspond with those entered in statement No. III as shown in the margin, and the latter statement for Heggadde vankote Municipality which makes no provision for works, includes Rs. 50 on account of establishment. The sum of Rs. 50 will be struck out and the provisions made in the other budgets will be modified as noted against each, regard being had to the reductions made in the preceding para under Works.

Municipalities	Provision made in II and III for works and compensation	Supervision charges proposed		Supervision charges sanctioned
		Statement No. I	Statement No III	
	Rs.	Rs.	Rs.	Rs.
1. Hunsur	2,964	249	309	176
2. Chamrajnagar	2,800	280	143	230
3. Yedatore	944	95	80	94
4. Sargur	933	102	75	50
5. Gundlupet	841	85	44	84
6. Nanjangud	2,270	226	140	207
7. Sosale	102	10	..	10
8. Saligram	2,188	220	131	180
9. Mule	270	30	..	27
10. Periyapatna	1,521	155	155	152
11. Bannur	592	60	13	10
12. Talkad	1,160	116	43	76
13. Kalale	180	16	109	16

10. *IX. Charitable Grants.*—The budget statement No. III of Sargur contains a provision of Rs. 36 on account of the rent of the dispensary building in the town without a corresponding entry in statement No. I, and no details have been furnished for the dispensary charges of Nanjangud amounting to Rs. 159, which have been erroneously exhibited in statement No. III against dispensary cooly. Moreover the budget statement No. I of Periyapatna exhibits Rs. 166 as having been sanctioned for 1902-03 on account of charges under this head, though statement No. III contains no corresponding provision. These omissions will be supplied and the correct provisions inserted in the budgets.

Municipality	Budget sub-head	As entered in statement No. III	As entered in statement No. I	As sanctioned by Government.

11. *XI. Miscellaneous.*—The provisions under this head as entered in certain budget statements No. I do not also correspond with similar provisions made in statements No. III as detailed in the margin. The figures given in column 6 will be adopted in the present budgets.

12. The budget estimates of the Municipalities in the Mysore District except French Rocks Sub-Division, for 1903-04, are sanctioned as per details given in the accompanying statement. The abstract results are given below :—

Municipality	Opening balance on 1st July 1903	Estimated receipts during 1903-04	Total including balance	Estimated expenditure during 1903-04	Estimated closing balance on 30th June 1904
	Rs.	Rs	Rs.	Rs.	Rs.
1. Hunsur	1,823	4,356	6,089	6,225	464
2. Chamrajnagar	2,548	4,333	6,881	5,480	1,401
3. Yedatore	1,211	2,150	3,361	2,610	751
4. Heggaddevankote	328	931	1,259	704	555
5 Sargur	187	1,296	1,483	1,396	87
6. Gundlupet	967	3,335	4,302	3,435	867
7. Nanjangud	1,984	7,023	9,669	8,942	667
8. T.-Narsipur	120	926	1,046	801	245
9. Sosale	308	711	1,019	824	195
10. Saligram	1,450	1,922	3,372	3,078	294
11 Mirle	150	930	1,140	882	258
12 Periyapatna	1,313	2,318	3,631	3,004	627
13. Bannur	977	1,270	2,247	1,654	593
14. Kalale	767	1,149	1,916	1,097	819
15. Talkad	1,085	906	1,991	1,779	212
Total ...	15,208	34,803	50,016	42,111	7,905

13. Notwithstanding the reductions made in paras 7 and 8, the balance in favor of Hunsur, Sargur, Nanjangud, Saligram, Mirle, Periyapatna and Talkad is less than the prescribed minimum. Steps should be taken to maintain the usual working balances by effecting savings in the sanctioned items, if the actual balances on 1st July 1903, do not happen to be in excess of the estimates adopted in the budgets.

14. Government regret to observe that there has been a delay of two months and 18 days in the submission of the budgets, which were due in this office on the 1st March 1903, and that in the preparation of the statements received after repeated reminders, no care and attention to the standing orders appear to have been bestowed in the President's office, as, in addition to the errors noticed in the foregoing paras, they contain several inaccuracies in the figures for 1902-03, which do not affect the present estimates. To avoid further delay in the issue of these budgets which may be caused by their being returned for revision and resubmission, the provisions corresponding to details have been accepted. The President is requested to see that due notice is taken of the carelessness of the officials concerned in the preparation of these statements and that steps are taken in future for their correct preparation in accordance with the clear instructions issued in Official Memorandum No. 6861-70—157, dated 8th December 1839, and submission on or before the due date.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The President of the Municipalities, Mysore District.
The Comptroller to the Government of Mysore.
The Senior Surgeon and Sanitary Commissioner with the Government of Mysore.
The Chief Engineer of Mysore.
The Inspector General of Education in Mysore.
The Examiner, Public Works Accounts.
The Presidents of other Municipalities.

APPENDIX A.

Statement showing the estimated Income of the several Municipalities in the Mysore District excluding French Rocks Sub-Division, for 1903-04, as compared with the sanctioned estimates for the previous year 1902-03.

READ—

Letter No. 1121, dated 15th April 1903, from the President of the Municipalities in the Bangalore District, submitting the budget estimates of the several minor Municipalities in the district for 1903-04.

Letter No. 1451, dated 18th June 1903, from the same officer re-submitting, after revision, the budget estimates of the Hoskote and Sulibele Municipalities.

No. 665-76.—L. F. 13-1903, DATED BANGALORE, 7TH AUGUST 1903.

ORDER THEREON.—The Receipts and Expenditure of the several Municipalities as estimated by the respective Boards are shown in the statement below :—

Budget Head	Items	Yelahanka	Kouguri	Hoskote	Sulibele	Devanhalli	Vadgenhalli	Doddaballapur	Nelamangala	Tyamagondlu	Magadi	Chennapatna	Closepet	Kankanhalli	Areekal	Sarjapur	Doumasandra	Total

2. The budget estimates of the Tyamagondlu Municipality will be returned for general revision so as to keep the expenditure within the limit of the money available, as the estimates proposed leave a debit balance against the Municipality.

	Rs.
(1) Opening balance on 1st July 1903, arrived at with reference to the actual balance on 1st July 1902, and sanctioned estimates for 1902-03 ..	1,014
(2) Estimated receipts for 1903-04 . .	2,612
Net balance available	1,593
(3) Estimated expenditure	2,106
Closing balance	—508

3. *Octroi.*—The estimates under this head in the following budgets are not supported by the actuals and the probable collections. They will therefore be reduced with reference to the average realizations during the three years commencing from 1st July 1900.

Municipality	Articles	Realizations				Average collections per year	Estimates for 1903-04	
		Actuals during 1900-01	Actuals during 1901-02	Probables for 1902-03	Total		Proposed	Sanctioned
1. Devanhalli ...	1. Cocoanuts fresh ...	200	182	134	516	172	200	180
	2. Sheep and goats	172	134	122	418	139	200	150
	3. Cloths ...	509	335	400	1,244	414	500	420
2. Nelamangala	4 Do	608	293	403	1,304	434	500	450
3. Magadi	5. Do . ..	365	649	645	1,679	559	700	600
4. Channapatna	6. Do	882	440	575	1,907	632	700	600
5. Closepet	7. Do	452	309	500	1,261	420	500	425

4. *X. Miscellaneous.*—The new estimates under "(*a*) sale of building sites," entered in the budgets of Closepet and Channapatna, and the increase provided in that of Kankanhalli should have been explained. The omission should be supplied, pending which, the estimate will be retained.

5. *Opening Balance.*—The estimates under this head will be modified as noted below with reference to the actual balance on 1st July 1902 and the sanctioned estimates for 1902-03:—

Municipalities	Actual balance on 1st July 1902	Estimated receipts during 1902-03	Total including balance	Estimated expenditure during 1902-03	Estimated closing balance on 30th June 1903 or opening balance on 1st July 1903
	Rs.	Rs.	Rs.	Rs.	Rs.
Yelahanka	253	1,085	1,338	1,278	60
Kengeri	494	1,072	1,566	1,257	309
Hoskote	2,291	2,880	5,171	3,020	2,151
Sulibele	1,098	1,108	2,146	985	1,161
Devanhalli	3,173	3,823	6,996	4,456	2,540
Vadigenhalli	2,485	1,948	4,433	2,300	2,133
Dodballapur	2,381	4,145	6,526	5,344	1,182
Nelamangala	223	2,525	2,748	2,666	82
Magadi	402	3,830	4,232	3,724	508
Channapatna	2,890	6,810	9,700	5,722	3,978
Closepet	375	3,733	4,108	3,947	161
Kankanhalli	69	2,598	2,667	2,487	180
Anekal	5,693	3,920	9,613	6,448	3,165
Sarjapur	1,822	1,312	3,134	2,244	890
Dommasandra	1,280	626	1,906	1,205	701
Total ...	24,869	41,415	66,284	47,083	19,201

EXPENDITURE.

6. *II. Head Office.*—In the budget of Channapatna a sum of Rs. 80 is entered under this head on account of "(*b*) District Office" as well as "(*b*) Dewan's and Comptroller's Offices," while in the budget of Kankanhalli, an item appears as "Charges of the Dewan's Office" without entering any amount against it. As no contributions are now paid by Municipalities towards the cost of establishment maintained in the Dewan's and Comptroller's offices, the sum of Rs. 80 provided in the budget of Channapatna will be entered against the District Office.

7. *III. Collections* (*a*) *Octroi.*—The charges proposed on account of collection establishment for the Hoskote and Sulibele Municipalities are in excess of the authorized rate of 10 per cent, but as the President considers them to be necessary, they will be retained, pending the receipt of a reply to this office Proceedings No. 17754—L. F. 180-02, dated 18th June 1903. In Channapatna and Anekal where, special agency is employed for collecting the duty, the percentage of charges is abnormally high, being more than 17 and 24 per cent of the collections. Steps should be taken to reduce the charges or to improve the revenue by enjoining strict supervision. It should be reported why special agency should not be employed in Closepet where Rs. 180 are spent for commission to village servants. Pending information the provisions will stand.

8. *III. Collection* (*b*) *House and Mohatarfa taxes.*—No explanation is furnished as to why a sum of Rs. 230 which is at variance with the sanctioned scale of remuneration for the collection of house and mohatarfa taxes, has been provided in the budget of Channapatna as noted in the margin. In submitting such an explanation, the President will report why in this Municipality special establishment should not be entertained for collecting these taxes as in the case of Octroi duties, instead of paying a large sum of Rs. 230 as commission to village servants. Pending further report, the provision of Rs. 230 will stand.

Municipality	Revenue	Estimate	
		Proposed	Correct amount
Channapatna ...	4,650	230	139

9. *IV. Conservancy.*—The marginally noted variations are proposed in the present budgets on account of establishments. The increases cannot be sanctioned as the budget is not the place for proposing increases to the existing hands or for entertainment of additional hands. In the budget of Nelamangala the provision of Rs. 180 for the hire of conservancy cart is omitted, and in lieu thereof Rs. 150 is provided for the purchase and repair of dust-bins and wheel-barrows in addition to Rs. 80 on account of contingencies. The necessity for the fresh provision of Rs. 80 and the arrangements proposed to be made for the removal of town sweepings after dispensing with the cart (which was considered necessary during the year 1902-03) should be explained. It should also be reported what carts, if any, exist in Vadigenhalli, where Rs. 20 are provided for their repair, and why a sum of Rs. 5 is provided for rewards to sweepers in the Devanhalli Municipality. Pending information on these points, the provisions made will not be disturbed.

Municipality	Items	Scale	
		Existing	Proposed
1. Devanhalli ...	Sweeper ...	6	6½
2. Dodballapur ...	do ...	7 at 6	6 at 7
	Scavenger ...	2 at 7	3 at 7
3. Nelamangala ...	Peon ...	6	7
4. Magadi ...	Additional sweepers ...	..	3 at 5
5. Closepet ...	Mutsaddi ...	8	10
6. Kankanhalli ...	Sweepers ...	5 at 5	3 at 5
7. Dommasandra ...	Allowance to a peon ...	1 at 1	..

10. *VII. Lighting.*—Except in the budgets of Kengeri, Closepet, Channapatna and Kankanhalli, the details showing the number of lamps and the rate of lighting each in places where lighting is given out on contract, have not been furnished as also the number and cost of lamp-posts and lanterns proposed to be purchased or repaired. The omission should have been supplied.

11. *IX. Charitable Grants.*—The reductions in the salaries of midwives proposed in the budgets of Hoskote and Closepet are in accordance with the recent orders contained in Proceedings No. 2273-84—L. F. 55-93, dated 3rd August 1902.

	1902-03	1903-04
Hoskote ...	120	90
Closepet ...	120	90

12. The budget estimates as sanctioned will stand thus :—

No.	Municipalities	Estimated opening balance on 1st July 1903	Estimated receipts during 1903-04	Total including balance	Estimated expenditure during 1903-04	Estimated closing balance on 30th June 1904
		Rs.	Rs.	Rs.	Rs.	Rs.
1	Yelahanka	60	1,055	1,115	1,109	36
2	Kengeri	309	1,161	1,470	1,041	429
3	Hoskote	2,151	3,081	5,232	4,146	1,086
4	Sulibele	1,161	1,216	2,377	1,341	1,036
5	Devanhalli	2,540	3,743	6,283	4,568	1,715
6	Vadigenhalli	2,138	2,001	4,134	2,598	1,536
7	Dodballapur	1,182	3,906	5,088	3,763	1,325
8	Nelamangala	82	2,590	2,672	2,316	356
9	Magadi	508	3,680	4,188	2,776	1,412
10	Channapatna	3,978	6,335	10,313	6,215	4,098
11	Closepet	161	4,193	4,354	3,878	476
12	Kankanhalli	780	2,035	2,815	2,303	512
13	Anekal	3,165	3,899	7,064	4,909	2,155
14	Sarjapur	890	1,371	2,261	2,089	172
15	Dommasandra	701	626	1,327	1,083	244
	Total ...	19,201	41,522	60,723	44,135	16,588

From the above it appears that the closing balances are less than the prescribed minimum in each of the Municipalities of Yelahanka, Nelamangala, Closepet, Kankanhalli and Sarjapur. Steps should be taken to maintain the usual working balances, if the actual balances on 1st July 1903, in favor of these Municipalities, do not happen to be in excess of the estimates adopted in these budgets.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The President of the Municipalities in the Bangalore District, returning the budgets of Tyamagondlu unsanctioned.

The Comptroller to the Government of Mysore.

The Chief Engineer of Mysore.

The Senior Surgeon and Sanitary Commissioner to the Government of Mysore.

The Inspector General of Education in Mysore.

The Presidents of Municipalities in other Districts.

Appendix A—Statement showing the estimated Income of the several Municipalities in the Bangalore District except Tyamagondlu for 1903-04, as compared with the sanctioned estimates for the previous year 1902-03.

READ—

Letters Nos. 713 and 716, dated 22nd and 23rd April 1903, from the President of the Municipalities in the Chitaldrug District, submitting the budget estimates of the several Municipalities in the District for 1903-04.

Letters Nos. 822 and 832, dated 16th and 22nd June 1903, respectively, from the same officer, resubmitting the budget of Chitaldrug duly revised, as called for in this office docket No. 17178—L. F. 21-03, dated 2nd June 1903.

No. 687-99—L. F. 21-1903, DATED BANGALORE, 8TH AUGUST 1903.

ORDER THEREON.—The income and expenditure of the several Municipalities of the district as estimated by the President for 1903-04 are given in the following statement :—

2. *I. Octroi.*—The variations in the estimates under this head are due to the adoption of the average collections of three years. The estimates are passed.

3. *House and Mohatarfa taxes and tolls.*—The decrease under House tax in Nayakanhatti and increase under Tolls in Davangere are stated to have been based on the jamabandi account of 1902-03 and the actual collections for the ten months ended 31st December 1902 respectively. But the cause of increase under Cart tax in Harihar has not been explained. Pending information the estimate is allowed to stand.

4. *VIII. Rents.*—The diminished estimate under Markets proposed in the budget of Chitaldrug is supported by the actuals of 1901-02 and is allowed.

5. *Opening Balance.*—The estimate proposed under this head in the budget of Chitaldrug is Rs. —1,606 but the correct figure arrived at with reference to the actual balance on 1st July 1902 as per Comptroller's final accounts for 1901-02 and the sanctioned estimates for 1902-03 will be Rs. —4,474 (or Rs. 2,867 less) as per particulars noted in the margin. The President explains that this large difference is due to the cost of materials purchased for the town water-supply project having been debited in full to the Municipal Funds of the town without giving corresponding credit thereto by treating the same as part of the project, and apportioning a moiety thereof as grants-in-aid and the other moiety as loan to the Municipality under Government Proceedings No. 11380-1—L. F. 171-96, dated 19th April 1897. On this subject a separate communication has been addressed to the Comptroller, pending whose reply and Government orders thereon, the President's figure will be tentatively retained in the budget.

	Rs.
Actual balance on 1st July 1902 as per Comptroller's Account	—1,381
Estimated receipts during 1902-03 ...	10,250
Total ...	5,269
Estimated expenditure for 1902-03 ...	9,743
Estimated closing balance on 30th June 1903 or opening balance on 1st July 1903	—4,474

EXPENDITURE.

6. *I. Interest on debt and XI. Repayment of loans.*—The provisions made under these heads as noted in the margin are approved. It is observed, with reference to the omission of provision against Chitaldrug, that as the estimated expenditure of the Municipality was in excess of the assets available, the original budget was returned for revision so as to bring the expenditure within the assets available (*vide* docket No. 17178—L. F. 21-03, dated 2nd June 1903). The budget was carefully scrutinized at a special meeting of the Board held on the 20th June 1903, when they were of opinion that the figures under Receipts were not susceptible of any increase and consequently effected certain reductions under Conservancy, Lighting and Miscellaneous charges. The revised budget now submitted also closes with a debit balance of Rs. 365 notwithstanding the omission of the usual provisions under these heads, and if these are added, the deficit will come up to Rs. 1,951. The Board therefore request that they may be excused from payment of interest and annual instalment due for 1903-04, or that the total deficit may be treated as an addition to the loan already sanctioned on condition of repayment in 20 instalments. As it is inexpedient to increase the existing liabilities, unless and until the Board improve their finances and show to the satisfaction of Government the ways and means for the due discharge of the existing and proposed loans, Government are not prepared to sanction the additional loan now applied for. But under the special circumstances brought to notice, the proposal to defer payment of instalment for a year is approved.

Municipalities	Interest on debt.		Repayment of loan.	
	1902-03	1903-04	1902-03	1903-04.
	Rs.	Rs.	Rs.	Rs.
1. Chitaldrug ...	.	.	1,286	
2. Davangere ...	720	634	1,209	684
3. Harihar ...	120	150	435	4 5
4. Holalkere ...	20	20	120	120

7. *III. Collection (b) House and Mohatarfa taxes and tolls.*—The present budget of Davangere provides for an increase of Rs. 10 and Rs. 50 respectively, on account of commission payable for Mohatarfa collections and printing and other charges incidental to the toll collections and also 12 months' salaries of the ten toll-gate

keepers sanctioned for only 9 months of the year 1902-03. The provision is approved.

8. *VII. Lighting.*—The new provision of Rs. 25 made in the budget of Malebennur for lighting two lamps in the town, is retained.

9. *VIII. Public Works (a) Supervision.*—The provision of Rs. 60 made in the budget of Hosdurga on account of establishment charges, will be reduced to Rs. 40 at 10 per cent on the cost of works exclusive of the provision of Rs. 100 for compensation.

10. *VIII. Public Works (b) to (e) Works.*—Owing to the insufficiency of funds, the provision made for original works in the budget of Chitaldrug will be reduced by Rs. 800 as shown in the margin and the other items passed.

	Proposed. Rs	Sanctioned. Rs.
1. Opening roads and conservancy lanes	500	200
2. Constructing drains and tunnels	300	200
3. Other works, original	500	100
	1,300	500
Reduction made		800

11. *XI. Miscellaneous.*—The Municipal Board of Chitaldrug propose to dispense with the services of the three marginally noted watchers as unnecessary but to increase the pay of the fitter from Rs. 15 to Rs. 20 per mensem on the ground that he is a good mechanic, well conversant with the repair and manufacture of taps, etc., and that it would be difficult to replace him in the event of his resigning the post. The increase proposed will be retained subject to formal sanction being obtained in the usual course.

	Rs.
1. Mahal garden watcher at Rs. 3 per mensem	36
2. Kachcheri watcher 1 at Rs. 6	72
3. Honda watcher 1 at Rs. 4	48

12. The budget estimates of the several Municipalities in the Chitaldrug District for the year 1903-04, are sanctioned as shown in the statement appended, the abstract being given below :—

No.	Municipalities	Estimated opening balance on 1st July 1903	Estimated receipts during 1903-04	Total including balance	Estimated expenditure during 1903-04	Estimated closing balance on 30th June 1904
		Rs.	Rs.	Rs.	Rs.	Rs
1	Chitaldrug	—1,606	8,300	7,194	6,759	435
2	Davangere	10,222	18,000	28,223	17,600	10,622
3	Harihar	743	4,130	4,873	3,828	1,045
4	Holalkere	615	2,365	3,013	2,727	286
5	Hosdurga	681	1,640	2,321	1,931	390
6	Hiriyur	289	1,220	1,509	1,217	292
7	Challakere	575	1,530	2,045	1,550	595
8	Jagalur	1,981	2,410	4,391	3,570	824
9	Molakalmuru	747	1,812	2,559	1,950	609
10	Turuvanur	896	750	1,646	1,444	202
11	Nayakanhatti	1,750	1,700	3,450	2,804	646
12	Rampur	435	725	1,160	930	230
13	Devasamudra	1,047	1,285	2,332	1,750	582
14	Bagur	805	872	1,677	1,368	309
15	Malebennur	301	973	1,274	1,060	214
	Total	19,697	48,212	67,909	50,288	17,621

13. From the above it is clear that even after excluding the debit of Rs. 2,857 referred to in para 5 *supra* and effecting other reductions, the balance in favor of the Chitaldrug Municipality is only Rs. 435, which is less than the prescribed minimum

balance by Rs. 1,765. In the Municipalities of Holalkere, Hiriyur and Malebennur also, the working balances are below the prescribed limit. The President should therefore submit proposals for maintaining the usual balances if the actual balances on 1st July 1903 do not happen to be in excess of the estimated opening balances adopted in the present budgets.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The President of the Municipalities in the Chitaldrug District.
The Comptroller to the Government of Mysore.
The Senior Surgeon and Sanitary Commissioner with the Government of Mysore.
The Inspector General of Education in Mysore.
The Chief Engineer of Mysore.
The Examiner, Public Works Accounts in Mysore.
Copies to Presidents of Municipalities in other Districts.

REVENUE

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ AGAIN—

Government Order No. 2313-21—R. 779, dated 12th September 1900.

As the original settlements of some of the taluks in Mysore have fallen in, the Superintendent of Revenue Survey is requested to take the work of revision in hand under the provisions of the Land Revenue Code, and submit for the orders of Government his proposals for each taluk as it becomes ready.

2. He may in the meanwhile bring to notice any points on which he may feel any doubt or on which any special instructions may be wanted.

READ—

(1) *Letter No. 206, dated 30th September 1902, from the Superintendent of Revenue Survey in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.*

I have the honor, in conformity with the practice followed in the case of original Settlement Reports, to submit my report upon the proposed revision of the assessment of the Davangere Taluk of the Chitaldrug District, after having forwarded the same to the Deputy Commissioner of the district for any remarks which he might wish to make.

2. The Deputy Commissioner has now, in his letter No. 348 of the 20th September 1902, given a very unqualified concurrence in my proposals, a result which, while very gratifying to me, leaves little room for further remark. I am glad to find that he supports the somewhat exceptional treatment which changed circumstances have obliged me to apply to 12 villages duly noted and also that he approves of the Irrigation cess as a separate levy.

3. I would invite attention to the Deputy Commissioner's plea for a good gravelled road from Hadadi onwards to Sulekere, which I beg to support.

4. The preliminary field inspection or "Phut Pahani" is reported as well advanced, and it only requires the sanction of Government to my proposals, so that I may announce the new rates at an early date.

REPORT ON THE PROPOSED REVISION OF ASSESSMENT OF THE DAVANGERE TALUK.

I have the honor to submit proposals for the revision of the assessment of 255 villages constituting the present Davangere Taluk of the Chitaldrug District.

2. *Preliminary.*—I propose, whenever possible, as it is in the present instance, to take up for revision each taluk as a whole, as at present constituted, in preference to following the original fractional settlements. This plan will entail some little additional labour in collecting statistics, but, for future revisions and general convenience, the advantages are obvious.

3. *Constitution of the Taluk.*—The 255 villages under report are made up as follows:—

100 villages (old Harihar Taluk), reported on by Major W. C. Anderson in his letter No. 38, dated 9th March 1865, Chief Commissioner's letter No. 4825-89, dated 20th March 1865.

33 villages (old Davangere Taluk), reported on by Major W. C. Anderson in his letter No. 71, dated 30th March 1865, Chief Commissioner's letter No. 5123-90, dated 5th April 1865.

121 villages out of 172 villages (old Davangere Taluk), reported on by Colonel W. C. Anderson, Survey Commissioner, in his letter No. 69, dated 20th April 1866, Chief Commissioner's letter No. 6541-50, dated 27th April 1866.

1 Inam village (old Harihar Taluk) resumed in 1882.

255

4. *Original Reports.*—The very early reports, quoted in the preceding para, are mere sketches, entering into but little detail. So urgent was it, at the time, deemed, that the objects and results of the survey should be made as widely and as quickly known as possible, and that the village and Taluk officers should be early familiarized with the preparation for, and the administration of, the survey settlement, that little time was lost in preparing reports. Consequently, it will be necessary to give a brief description of the small tract now under revision settlement.

5. *Boundaries.*—Subtended for some 30 miles of its western boundary by the Tungbhadra river, the taluk of Davangere is bounded on the north by the Bellary Collectorate, on the east by the taluks of Jagalur and Chitaldrug, and on the south by the taluks of Holalkere, Channagiri and Honnali.

6. *Drainage.*—Setting aside the main drainage of the country by the Tungbhadra river, the most important subsidiary or local drainage is effected by the Sulikere Nala called the Haridra, flowing from south to north through the best part of the tract under report, and falling into the Tungbhadra at Harihar. For the eastern villages, a small stream flowing into the Anaji tank, and for the northern villages, a stream rising near Anigod and joining the Tungbhadra river at Chik Bidare, perform, on a small scale, the same office.

7. *Physical Characteristics.*—With the exception of a group of hills separating the taluk from Honnali, near Malebennur, its western edge resting on the Tungbhadra river, and another well defined range of hills extending from Maikonda to Anaji, on the eastern confines of the tract, the country presents an almost unbroken plain, sloping gradually towards the Tungbhadra river and Harihar. The solitary hill of Bate, betweeen Harihar and Davangere, although of no great height, presents a conspicuous land-mark in this plain.

8. *Soils.*—Although soils are more or less intermixed throughout, the western half of the tract may, broadly speaking, be said to contain the black cotton and better soils and the eastern half the ordinary red soils, some of them very stony and inferior.

9. *Cultivation.*—Cultivation will be found to follow the suggestions of climate and necessity. Thus the western villages enjoying, if not a more copious, at any rate a more opportune rain-fall, as well as superior soil, rely almost entirely upon dry cultivation, tanks and wells being comparatively few, the exception, in the case of the latter, being some well irrigation induced by favourable sites near the Sulekere Nala and its small affluents. The eastern villages, on the other hand, enjoying not quite so opportune a rain-fall nor such good soil, the raiyats are glad to avail themselves of tank and well irrigation when possible, and consequently it is here that the few tanks in this taluk are to be found and that well irrigation is more common. The whole tract, however, is essentially dry crop. The crops are, according to the soil, jola, navani, cotton and wheat in the black and better soils, and ragi, navani and the usual miscellaneous crops in red soil. Castor oil, wild gingeli and gingeli are grown for oil-seeds. The irrigated lands, whether under wells or tanks, or both combined, produce rice, some sugar-cane and cocoanuts, as well as a good deal of irrigated jola and ragi. There is but very little arecanut grown. The following rough percentage distribution of crops taken from the statistics of 1900-01 may be taken as approximately correct and representative of the cultivation year by year :—

Distribution of Crops.

Jola	56
Ragi	17
Gram	7
Rice	3
Others	4
Oil-seeds	8
Cotton	4
Sugar	·4
Drugs	·3
Orchard produce	·3
	100

10. *Climate.*—The rain-fall may be taken at about 21 inches, fairly distributed but more opportune and suitable to the soil in the western half of the taluk. As a whole, the taluk may be said to stand as good a chance as any part of the Province of participating in *both* monsoons, the ordinary south-west monsoon and the north-east or Madras monsoon. This view is in a measure upheld by the fact that Davangere is the only taluk in the district appearing in the Famine Map of 1877 as "Less severely affected." My own impression is that such a result was not wholly due to the climate but in a measure to the extremely favourable position occupied by Harihar and Davangere on the Bangalore main road, and consequently the great facility of importing grain for local relief at short notice.

11. *Communications.*—Communications, decidedly good even at the time of the introduction of the original settlement, have since been brought to a high state of efficiency. In 1865 there existed the Bangalore-Harihar high road running through the centre of the taluk from east to west, and the high road from Harihar southwards, *via* Malebennur, to Shimoga. Subsequent to the introduction of the original settlement, a road northwards from Harihar towards Harpanhalli; roads from Davangere southwards to Hadadi and eastwards to Anaji; as well as one from Anigod southwards to meet the railway, have all been constructed. Then, to top these already excellent means of communication, there is the Southern Mahratta Railway opened in 1899 with stations inside the taluk, at Harihar, Davangere, Tolhunshi, Kodaganur and Maikonda. I may remark that the presence of the railway has led to an appreciable improvement of the ordinary cart-tracks in order to reach it.

12. *Markets.*—In the matter of markets there is the ever-growing town of Davangere (8,000) a trade centre of immense importance, with lesser markets at Harihar (6,000), Malebennur (1,900), Hadadi (1,300), Anaji and a few others of quite minor importance. Davangere, always a place of trade, has greatly increased in importance since the opening of the railway and now attracts the trade not only of the surrounding taluks of Mysore but that of the adjoining Bellary District while two large European houses have established agencies and do quite a large business in cotton and oil-seeds respectively. In Buchanan's time (1800) Davangere was a town of only 500 houses, but even then a good deal of trading took place. In addition to the weekly markets above enumerated, the Durgamma jatra, held once in two years at Davangere and attracting 8,000 people, and at Harihar the car festival, annually attracting 5,000 visitors, may be mentioned, as not without influence on trading opportunities.

13. *Changes.*—It is obvious that great changes have occurred since the introduction of the settlement in 1865, the most important of all being the opening of the railway and its influence upon the markets which have greatly improved in facility and importance. I would invite attention to Appendix A containing some extracts from a report (No. 246, dated 24th September 1895) drawn up by Mr. D. Appu Rao, Deputy Superintendent, at my request, at a time when, although no re-survey had been decided on, it was necessary to collect some information regarding trade and prices in taluks the settlement of which had fallen in. Not only has a great impetus been given to trade generally, but the position of the agricultural classes has been undoubtedly improved. Mr. Appu Rao writes.—

> "Some cereals such as navani, etc., which had little or no market value in some places before the opening of the railway, find a ready sale now and fetch good prices."

And again—

> "In the Harihar market there was hardly any trade in ragi during the pre-railway period, while it is now one of the important articles of traffic here."

14. *Changes.*—Quite apart from any question of a general rise in prices, with which I will deal later on, there has been a local disturbance, if I may use such a word, of advantages, in other words, prices. Some villages have suddenly stepped

from an outlying and unimportant position into one on a busy line of traffic, others have found their surroundings less abruptly altered, but it is safe to state that out of the 255 villages now under report there is not a single village which is not in a better position, more or less, than it was at the time of the original settlement, owing to the great advance which has been made in the means of communication and consequently the facility of disposing of surplus produce. I will make my meaning clearer when I come to deal with the re-grouping of villages for the purpose of re-assessment.

15. *General Trade.*—The general direction of trade requires a word. A valuable trade is carried on in Davangere, with Wallajapet in North Arcot, on the one hand, and with Sagar and Nagar on the other, the arecanut of the two latter being sent to Wallajapet. Madras goods imported from Europe, China, Bengal and the Eastern Islands together with salt obtained in return, as well as kamblis made in the neighbourhood, are transmitted to the Malnad. Such has always been considered the general direction of the trade carried on at Davangere. The railway no doubt has effected considerable alterations both in direction and goods, but all for the better. Some idea of the importance of Davangere as a centre of trade may be formed from the fact that for the 12 months ending 31st December last, according to the railway records, 41,492 tons were booked at the Davangere Station outwards and 18,726 tons inwards. At the other small stations inside the taluk the figures for the same year were 2,810 tons outwards and 3,880 tons inwards. The figures for Davangere compare favourably with stations such as Bangalore and Bellary.

16. *Objects of Re-survey.*—The villages under report have been subjected to a partial re-survey, the principles and scope of which were submitted to Government and approved (see Government Proceedings No. 4250-8—R. F. 58-1900, dated 26th November 1900).

As this is the first taluk taken up for revision settlement, I will briefly sum up the main objects aimed at during the re-survey. In the first place re-measurement, as distinct from subdivision, has been carried out whenever roads, canals, railways or extension of village sites, not already dealt with, or measured according to rules, encroachments of rivers or streams or natural or other causes rendered such a measure necessary. In the second place existing survey numbers have been subdivided into new survey numbers (1) in order to give, as far as possible, subject to the minima prescribed under Section 109 of the Land Revenue Code, to each occupancy, whether Government or Inam, separately recognized in the village accounts, the independent status of a survey number; and (2) to make a new survey number in cases of excessive area, whether occupied or unoccupied assessed. Subdivisions under Rule XXVII of the Land Revenue Rules of 1891 have, for the above purpose, been considered as occupancies separately recognized in the village accounts. Subject to the minima under Section 109 of the Land Revenue Code, the separation, by making new survey numbers, has been effected, as far as possible, of the various classes of land comprised in the same old survey number, especially in cases in which the source of water-supply is partly private and partly Government. Each survey number was inspected and, if neither correction nor subdivision was required, the boundary marks were simply brought up to standard and inspected and the survey number in question left undisturbed. The maps have of course all been brought up to date.

17. *Results of Re-survey.*—In carrying out the re-survey, as above, 19,633 old survey numbers have become 24,582 new survey numbers. The corrections, in connection with new roads, and the encroachments of the river and smaller streams, have been numerous; also in connection with roads and the requirements of the Public Works Department.

18. *Extent of Re-classification.*—The original classification of the *soil* has in no case been disturbed or altered, but the *water* classification of all the rice and garden lands has been revised. This operation, in the case of all garden and wet lands dependent on Government water was necessary, in the interests of Government as well as of the raiyats, because the changes in water-supply, from the silting up and

deterioration of some tanks and the repairs of others, during a period of more than 30 years, have been so great as to render the original water classification a most unsuitable basis for re-assessment. Similarly, in the case of well-irrigated lands, great changes had occurred. New wells had been sunk and old wells had been abandoned; in short, without a re-classification of the supply of water in all wells, it would be impossible to give effect to the liberal policy adopted by Government for the re-assessment of well gardens which I shall describe further on. The water classification of the taluk has now been most carefully revised, the original soil classification being left undisturbed.

19. *Comparison of Old and New Survey.*—The area of each description of land according to the past and present surveys is shown in the following statement:—

	Former survey.	Present survey.
	Acres.	Acres.
Arable dry crop	289,625	288,077
Rice or wet land	3,146	3,991
Garden land	1,894	1,773
Unarable unassessed of all kinds	55,020	56,315
Total ...	349,685	350,156

Note.—The difference of 200 acres between these figures and the total of columns 7 and 8 of Appendix E is due to the latter being the figures furnished by the Amildar according to revenue accounts, probably remaining unverified from Akarbands.

The difference in the arable dry crop area is so slight as to require no explanation. The increase in the area of wet land is due chiefly to the transfer of some 600 acres from the head of garden to that of rice or wet land, while the garden area remains very much where it was, notwithstanding the above transfer, owing to the sinking of new wells. Altogether the irrigated area, irrigated from all sources, has increased by about 700 acres, allowing for gardens which have reverted to dry crop still retained in the accounts as garden but assessed at ordinary dry rates.

20. *Population.*—I now come to the important question of how population and agricultural resources have fared during the long period under retrospect. Here I am somewhat at a loss in the matter of comparative statistics regarding population, owing to the fact that I cannot trust the enumeration carried out by the measurers during re-survey. The enumeration of 1865 effected by the classers, who are accustomed to such work, is however reliable, and I will interpolate the figures of that year with the Census figures as below:—

1853.	1865.	1871.	1881.	1891.	1901.
Kaneshumari.	Survey.	Census.	Census	Census.	Census.
60,823	68,018	94,006	72,749	94,565	108,546

The figures for 1865 exclude 8 inam villages and are therefore in some small measure vitiated for purposes of comparison, but the Census figures are beyond question. The recuperative power of the tract is remarkable. At present the

population is no less than 199 per square mile, which, for an essentially dry crop taluk, is decidedly high and far in excess of what will be found in other taluks of the district. Making every allowance for the two large towns of Harihar and Davangere and several other decidedly substantial villages, the taluk compares favourably with the neighbouring Bombay Taluk of Ranibennur, which in 1878, at time of revision, showed only 172 to the square mile.

21. *Agricultural Resources.*—The following comparative statistics I am in a position to put forward as fairly reliable. They are taken from figures compiled at the original classification and again at re-survey:—

	Original settlement 1865.	Re-survey 1901.	Increase.	Decrease.
Houses	15,198	21,420	6,222	...
Cattle	91,154	72,690	..	18,464
Carts ...	2,771	4,707	1,936	...

Under "Cattle" are included, agricultural cattle, cows, buffaloes, horses, sheep and goats. Unfortunately I cannot take out the agricultural cattle separately. Could I do so, I have no doubt that, as was the case in all the taluks revised in the Dharwar District, the number would be found to have increased, while the inferior animals would show a large falling off. The decrease in the total number, good and bad, is, however, remarkable and is greater, relatively, in the Davangere Taluk than in any other taluk of the district. The absorption of all the better grazing lands into cultivation and the comparatively limited area and indifferent quality of the residue afford the clue. Stall feeding has been resorted to for the better and more useful animals, and many of the worthless stock have been sent to neighbouring taluk where the grazing, if not very good, is at any rate more extensive. The increase in the number of houses has been decidedly great and bears out the figures given in the preceding paragraph, showing the increase of population. The increase in the number of carts indicates the prosperity of the taluk and that the export trade has increased. I am not sure that the number of carts would not have been even greater had it been possible to enumerate all, but some no doubt escaped notice, being absent on the carrying trade to the Malnad and elsewhere. What effect the presence of the railway has upon the number of carts maintained it is not easy even to conjecture, much less make any reliable estimate of. At any rate the tract possesses quite a large number of carts, pointing to the prosperous condition of the people and the existence of a comparatively large trade. My inability, in the absence of a complete re-survey and classification, to give comparative statistics regarding wells, past and present, must be made up for by such information as I can give of the area brought under well irrigation. From the figures given and explained at para 19, we may fairly assume that well irrigation has increased by from 300 to 400 acres. These figures may appear insignificant, but it must be remembered that we are dealing with an essentially dry crop taluk and that every acre brought under irrigation contributes its quota to the general prosperity.

22. *Prices.*—The most important, as it is the most difficult, point to arrive at, is a fairly correct estimate of the percentage increase of prices since the original settlement. That this point can be established with absolute nicety is not to be expected, but I think it quite possible to show that a certain indisputable increase has occurred.

23. I append a statement marked B showing, from a period so far back as 1852, the prices of the two chief kinds of produce, which have ruled in the taluk. Mr. Appu Rao (see Appendix A) examined what he considers genuine and trustworthy

accounts of merchants in the several important markets of the district and also the accounts of merchants from Ranibennur, Bellary, Tiptur, Bellavi and Tumkur, and he also, for purposes of check and comparison, obtained, as far as available, lists of prices from the various Amildars. Mr. Appu Rao's list embracing the whole period of 48 years is the only complete one, and we must view it in conjunction with the other incomplete lists. I have endeavoured to show in one complete view, in Appendix B, the prices for Davangere, as derived from various sources. Discarding abnormal years, the following abstract statement from Appendix B will give a fair idea of the course of prices during a period of 48 years :—

Seers of 80 tolas per rupee.			Remarks.
Years.	Jola.	Ragi.	
1852 to 1864	53	54	The prices of all other produce have risen in much the same proportion.
1868 to 1876	38	50	
1879 to 1890	36	45	The price of cotton has nearly doubled.
1891 to 1900	23	29	

The above are not equal periods. The first period takes us up to the time when the American war prices commenced. The second period covers the time from which prices became normal, after the scarcity of 1866, up to the advent of the great famine. The third period shows the state of prices from the time when the country recovered from the great famine up to 1890 when the effect of the railway began to be felt. The fourth period is that during which communications may be said to have been highly efficient. The years which I have discarded as abnormal are 1865 to 1867 when the American war followed up by the scarcity of 1866, forced prices abnormally; and the two years when famine prices ruled, 1877 and 1878.

24. Mr. Appu Rao estimates that since 1881, the price of jola has risen 41 per cent and that of ragi 34 per cent. In support of those conclusions, I quote the following prices for quinquennial periods, as compiled by the Director of Statistics and published in the *Mysore Gazette* of 6th March 1902, Part C. The figures are for the Chitaldrug District and are given in seers and decimals of a seer per rupee (the standard seer of 80 tolas) :—

Period.	Rice, 1st sort.	Rice, 2nd sort.	Ragi.	Jola.	Bengal gram.
1886-90 ...	11·12	13·26	46·06	41·20	13·31
1891-95 ..	9·32	10·74	36·03	30·35	11·90
1896-00 ...	8·57	9·95	25·85	22·88	10·10

Consistency of Prices in the Province.—Unfortunately the above figures do not go farther back than 1886, excepting for two districts, Bangalore and Mysore. In those two districts, however, the prices for the period 1881-85 differ scarcely at all from those of the period 1886-90. Any one studying the interesting retrospect of prices by the Director of Statistics, published as above, must be struck by the extraordinary consistency of the rise and fall of prices throughout the Province, and we may safely assume that present prices in the Chitaldrug District bear very much the same relation to the prices of 1881-85 that they do to those of 1886-90. It is therefore obvious that the Director's figures more than bear out Mr. Appu Rao's estimate, but it must be borne in mind that the former gives wholesale and the latter retail prices.

25. *Prices from 1865 to 1881.*—It remains to consider the period from 1865 to 1881. Not only is information for the said period deficient, but abnormal seasons and abnormal outside influences abound, such as the scarcity of 1866, the great famine of 1877 and the American war prices which closely preceded the scarcity of 1866. Leaving out exceptional years, the position of the raiyat of 1881, with reference to facility in profitably disposing of his surplus produce, compares favourably with that of the raiyat of 1865. It would certainly be strange were it otherwise for, by 1881, great improvements had been effected in communications, and the country had begun to recuperate in a remarkable manner from the dire effects of the famine, the population being quite as high as it was in 1865 and, although greatly fallen off as compared with 1871, well on its way to attain the high figures reached in 1891 and 1901 (see para 20 *supra*). An examination of the Bombay Revision Settlement Reports of Taluks adjoining, or near, fully bears out the conclusions I have arrived at, that the prices of 1881 were quite as good for the raiyat as those of 1865. My opinion is that the raiyat was better off in 1881 than in 1865, but, in order to be on the safe side, I will assume that his position in the former year was at any rate not worse.

26. *Early Condition of the Taluk.*—When this taluk was settled in 1865, the people were fairly well-to-do, as testified by Colonel Anderson, who framed the rates, and my own experience when personally carrying out the survey in 1863 points to the same conclusions. Sixty-five years under a protecting Government had wrought a marvellous change from the condition in which Buchanan found the country in 1800. No part of the Province lay so much open to, or suffered so much from, the devastations of the Mahrattas as this little north-west corner. Tracts of rich land lay untouched by the plough, the raiyats were demoralized by compulsory cultivation, by which alone the revenue could be at all maintained, and even the transit of surplus produce was endangered, the robbers frequently being the Government's own servants. Under such circumstances Buchanan somewhat unfairly characterized the people as fickle cultivators and generally stupid. When the present settlement was introduced, the waste tracts had been to a large extent reclaimed and the people were in fairly good circumstances. The progress which had been made was very palpable and a comparison of the condition of the people with what it had been in the old troublous times showed an immense advance in general prosperity, and prices were, just at that time, running very high, owing to the American war. Colonel Anderson was, however, too experienced an officer to attach any importance to, or at any rate to take into consideration in justification of an increased assessment, prices which he knew to be abnormal. His settlement, as will be seen by referring to the correspondence quoted above at para 3, amounted to little more than a redistribution of the old assessment on a scientific basis.

Pitch of Original Settlement.

The above is a point of some importance, for if abnormal influences were kept out of sight when considering the present rates, they should also be kept out of sight when considering the revision settlement.

27. I regret being obliged to devote so much space to the question of prices, but this is the first taluk taken up for revision, and the prices of produce, up to which all the other considerations set forth in Section 115 of the Land Revenue Code really lead, represent the only consideration upon which the revised assessment can be fixed. Section 115 lays down that the revised assessment should be fixed with reference to general considerations of the value of land as to soil or situation, prices of produce or facilities of communication. Of these considerations that of soil is, or should be, in practice omitted. Situation and facilities of communication are the basis of the prices of produce and might have been omitted but for the fact that they influence prices locally, as distinct from a general rise in prices.

28. *Unremunerative Character of Early Prices.*—The conditions under which agriculture is pursued have undergone complete change. To go no farther back than the earlier years of the present settlement, broadly speaking, to the pre-railway period, we find prices being chiefly regulated by the year's out-turn, a year of scarcity and high prices benefiting a few capitalists but distressing the poorer raiyats and the labouring classes, while a year of plenty brought only relief, not

gain, for prices fell so low that even the staple grains, ragi and jola, were not traded in, their bulk being too disproportionate to their value to render exportation remunerative, and several articles of minor produce, straw for instance, were not considered worth selling. What this particular part of the Province, distant from large centres and quite beyond railway influence, has all long required, and has fortunately now secured, is a perfected system of communications not local but with the outside world whence the demand has always been strong and unfailing but which naturally would not seek to satisfy itself in a country not easily reached excepting by long road journeys. The railway has now annihilated distance, and results are palpable in whatsoever figures we choose to examine, whether relating to prices or to extension of cultivation or to general business. Prices may rise as high as ever, but that they should ever again fall to the old unremunerative level is as improbable as that the improved communications which have caused their rise should be bodily swept away. Prices in short are now regulated, in the main, by permanent influences. The raiyat sells all surplus produce, seldom storing grain as he used to do, and I have heard regret expressed that this should be the case, but if the railway can carry away it can also replace grain supplies. The loss in *value* to the tract, when the raiyats lived a hand-to-mouth existence, must have been enormous. The influence of the railway is very far reaching and if traders deplete the grain in the most advantageous localities, the vacuum is soon filled up from other parts a little more distant and a radius of improved prices is created to a great distance from the actual points where grain is packed for exportation.

Effect of Railway.

29. *Sales and Mortgages.*—As bearing upon and in illustration of the general welfare of the country, I append in Statement C, a few selections from over 1,000 transactions of sales, leases and mortgages of land, compiled by Mr. Appu Rao from the records of the Registration office. These cases are of course intended to show the high value attached to land in this taluk, but they cannot be called specially selected cases for there are many more which indicate just as high value, although others, as must be the case in any tract however prosperous, show the opposite extreme. The transactions which I have selected from, extend over a very long period, over thirty years, and are therefore not so numerous, as at first sight might appear. The impression formed on my mind is that land here is very valuable property.

Value of land.

30. *Past Revenue History.*—Statement marked D gives the revenue history of the 255 villages under report during 34 years of the present settlement. The settlement having been introduced piecemeal (see para 3 *supra*) did not take effect wholly, that is, in all the 255 villages, until 1867-68, and I therefore begin the statement with that year. The figures given may contain some errors but for all practical purposes are correct. The remission columns are blank excepting for 1876-77.

31. The fluctuations of the revenue will be best understood from the following excerpt from Statement D:—

Year.	Government occupied land.		Government arable unoccupied waste.		Remarks.
	Acres.	Collections.	Acres.	Assessment.	
		Rs.		Rs.	
1867-68	179,395	1,50,155	87,580	31,869	Of the revenue antecedent to the original survey settlement, it will be sufficient to state that the effect of the survey settlement of 1865 was to raise it about 5 per cent only.
1877-78	172,164	1,25,226	95,424	37,666	
1887-88	189,562	1,32,518	85,438	37,715	
1897-98	240,670	1,56,328	34,600	12,994	
1900-01	246,539	1,58,601	28,988	10,977	

32. For the first few years after the introduction of the Survey settlement the collections of anything, showed a falling off, thus bearing out, I venture to say, my remarks at para 28 on unremunerative prices. It must however be noted that 1867-68 was a year of, for the times, abnormally high collections, owing to the unwillingness of the raiyats to resign any land to which they could lay claim until they had time to look round and understand the terms of the settlement. The year 1868-69 may more fairly be taken as a starting point, and if this be done, it becomes apparent that by 1874-75 a marked improvement had set in, but speculation as to whether it would continue or not was interrupted by the approach of the great famine which heralded itself very early. It took the country some time to recover from the effects of the famine, but by 1884 a marked recuperation had taken place and by 1887-88, just 10 years after the famine, the revenue was in advance of all former experience. From this point collections advanced by leaps till in 1900-01 the assessment of the Government occupied land stood at Rs. 1,58,601 as against Rs. 1,30,155 in 1867-68 although the latter, as above explained, was a year of exceptionally high collections. The story is perhaps best told by the area of the arable unoccupied waste, which was 87,580 acres in 1867-68 and only 28,988 acres in 1900-01, and it is worth noting that while the area of the arable unoccupied land has thus dwindled down to less than one-third of what it was, the realizations from the sale of grazing (see Col. 10 of Appendix D) have more than doubled.

33. *Railway Construction.*—The rise and culmination of prices are concurrent with the commencement and completion of the various railways. Activity in railway construction marks the whole period from 1881. In that year of the new lines, there was only that from Bangalore as far as Mandya, but in 1882 it was opened as far as Mysore; in 1884 the Bangalore-Tumkur line was completed and extended 11 miles to Gubbi, and in 1889 direct communication between Mysore and Poona and so with Bombay was completed. The influence of railway communication is very far reaching, and although the tract under report did not get its own immediate line until 1889, the effect of other more remote lines began to show from 1881 in improved prices and, consequently, improved revenue. When direct communication was actually completed with Poona on the one side and Mysore on the other, the effect was extraordinary and collections at once rose; thus in 1887-88 the assessment of the occupied Government land was Rs. 1,32,518 and in 1900-01 it was Rs. 1,58,601. The total land revenue from all sources, Government occupied land, realizations from sale of grazing and quit-rent on Inam lands (see Col. 16 Appendix I) rose from Rs. 1,49,406 in 1887-88 to Rs. 1,85,496 in 1899-00. In short almost the whole of the increase has occurred since direct railway communication was established between Mysore and Bombay, the line running through the heart of the tract under report.

Effect of Railway on Revenue.

34. *Weight of Present Settlement.*—I am fairly entitled to deduce from the above facts that the survey rates have sat with extreme leniency. The Survey Department has been alternately blamed and applauded for adopting what are regarded by the public generally as extremely low rates of assessment for the Chitaldrug District as a whole. Such criticism includes the taluk now under report but is not so accentuated as in the case of the other taluks of the district. I do not myself regard the rates adopted by Colonel Anderson for the villages under report as very exceptional. They are very similar to the rates in force in the adjoining Bombay Taluk of Ranibennur. Intrinsically they are decidedly moderate and nothing could have been wiser than Colonel Anderson's action in refraining just at that time from adding materially to the revenue demand. As a matter of fact, he did little more than scientifically re-distribute the old demand increasing it by only 5 per cent, not sufficient to meet the charge for the remuneration of the patles and shanbhogs, which was an inherent part of the settlement, and in consideration of which the raiyats were relieved from the payment of "Aya," a grain levy, and other perquisites to those officers. It is only fair to the Department to state that

the late Dewan Sir K. Sheshadri Iyer gratefully acknowledged the lightening of his own anxiety and of the labours of the officers who dealt with the famine of 1877, owing to finding the survey rates so low in a country so poor as the Chitaldrug District was at that time regarded.

35. *Grounds of Revision Settlement.*—Having thus compared all essential circumstances of the tract under report, past and present, I proceed to the question of the revision of the assessment. I believe I am meeting the intended policy of Government when I state that I shall deal with this question not as one of the full proportion in which the State would be entitled to share in the increased value of the land as to prices, but as one of the amount of increase well within the strictly justifiable limit, which the circumstances of the country render it expedient to propose.

36. *Grouping of Villages for Revision.*—The original settlements were carried out fractionally, which makes it somewhat difficult to make quite clear the grouping into villages for the purpose of assessment adopted by Colonel Anderson, but as Statement E appended gives full detail regarding the present and past area of each description of land in each village, and of the present and proposed assessment and rate of increase for each, and also of the maximum rates for each village both past and present, a general description of Colonel Anderson's grouping of villages should suffice, indeed a minute disquisition regarding grouping is calculated to confuse.

37. The broad principle which regulated the present grouping of all the villages now under report was that the fall of rain was more to be relied on in the west and south-west and that it undoubtedly deteriorated eastwards. When a village was exceptionally well situated with reference to markets or roads, it went up into a higher group. This was absolutely the basis of the old grouping, and I have in the main adhered to what Colonel Anderson carried out and have accepted the considerations which generally actuated him. The following is a brief description of each group which I now propose to make and which will be found clearly shown on the accompanying map :—

1st—26 villages near and round Harihar occupaying the best position in the taluk with reference both to climate and markets, for which I propose a maximum dry rate of Rs. 2-6-0 and a wet maximum rate of Rs. 6-8-0. In the old grouping all these villages had a maximum dry rate of Rs. 2 and a wet or rice maximum of Rs. 8.

Note.—In Colonel Anderson's Settlement Report the maximum wet rate appears as Rs. 6, but the rate really adopted finally was Rs. 8.

2nd—125 villages occupying excellent position with reference to climate, or inferior climate but compensated for by good position in regard to markets. This group includes the western position of the taluk drained by the Sulikere Nala and some villages more to the east which, with less certain climate, are near the Davangere market and the Railway. I propose a maximum dry rate of Rs. 2-4-0 and a maximum wet or rice rate of Rs. 6-8-0.

In the old grouping 72 villages had a maximum dry rate of Rs. 2-0-0, 41 villages of Rs. 1-12-0 and 12 villages of Rs. 1-8-0. Wet rate Rs. 8 for 76 villages and Rs. 6 for 51 villages.

Note.—This group illustrates, in the case of 8 villages, formerly assessed at a maximum dry rate of Rs. 1-8-0 now raised to Rs. 2-4-0, the extreme change from an outlying and unimportant position to one in a busy line of traffic.

3rd—86 villages, chiefly in the south and east, not particularly well situated either as to climate or markets. For these I propose a maximum of Rs. 1-14-0 for dry and Rs. 6-8-0 for wet or rice land. In the old grouping 9 villages had a maximum dry rate of Rs. 1-12-0 and 77 villages of Rs. 1-8-0; the maximum wet rate was Rs. 6 for all excepting one village, in which it was Rs. 8. This last village belonged to the old Harihar Taluk.

4th—18 villages to the extreme east bordering the Jagalur and Chitaldrug Taluks, in which the drawbacks in the 3rd group are somewhat accentuated, especially as regards climate. I propose a maximum of Rs. 1-12-0 for dry and of Rs. 6-8-0 for wet land. In the old grouping all these 18 villages had a maximum dry rate of Rs. 1-8-0 and Rs. 6 wet.

38. It will be observed that the wet or rice maximum rate proposed for all the 255 villages is Rs. 6-8-0, thus raising some which formerly had a Rs. 6 maximum and lowering others which had a Rs. 8 maximum. There is not the slightest reason for making any distinction in the case of these wet lands, the produce of which is more valuable and as a rule less bulky, and Rs. 6-8-0 represents a perfectly fair maximum for all. No doubt the old maximum of Rs. 8 could have been maintained without a murmur from the occupants, but the area involved is exceedingly limited and, as before stated, although Colonel Anderson really applied a Rs. 8 maximum, he originally reported a Rs. 6 maximum as appropriate.

39. *Principles of Revised Garden Assessment.*—For garden lands I propose not to exceed, in the case of those dependent on tanks, Rs. 8 per acre, while in the case of gardens irrigated only from wells I have followed the procedure laid down in Government Proceedings No. R. 3133-16—R. F. 8-1900, dated 24th January 1902. The main features of the above mode of revising the assessment of well gardens are—

1st—the assessment of well gardens, recorded as existing at the time of the first settlement, within the highest dry crop rate;

2nd—the assessment of well gardens since converted from dry land, at the ordinary dry rates;

3rd—the assessment, at ordinary dry rates, of well gardens, recorded as such at the last settlement but which, the water in the wells having failed, are no longer cultivated as garden;

4th—the assessment, on their merits, of gardens under wells which draw their water supply by percolation from tanks, or which draw the i supply of water from a source, the property of Government;

5th—the old well assessment not to be enhanced in any case.

40. In order to see how the above treatment works out, I anticipate the exhibition of general results of my proposals so far as garden lands are concerned. There have been found after re-survey and re-classification, in this taluk, 1,827 acres of garden of all kinds and tenures, which I classify and assess as below:—

Class.	Acres.	Assessment	Average rate.
		Rs.	Rs. a. p.
1. Gardens under tanks	657	2,973	4 4 9
2. Gardens under tank-dependent wells	43	127	2 10 3
3. Gardens under wells, so recorded at last settlement, purely self-dependent.	514	1,133	2 3 3
4. Gardens under wells as above but water-supply failed ...	161	240	1 8 7
5. Gardens formed since last settlement under new wells ...	447	709	1 9 4
Total ...	1,827	5,191	2 13 4

41. In a dry and, so far as irrigation is concerned, unimportant taluk like Davangere, the question of the proper method of assessing well-irrigated lands, at revision is of no great moment but, in the matter of principle, and from its significance from a general and future point of view, the question is not one which I would be justified in leaving untouched upon. A brief retrospect of what has transpired in Bombay in this respect is necessary. The whole of the Deccan and Southern Mahratta Country were, for the purposes of revising the assessment of well-irrigated lands, brought under what are well known as the Rules of 1874. The Bombay Land Revenue Code was passed in 1879. In 1881 the provisions of that Code, as comprised in Section 107 (*b*), were considered to militate against the liberal policy of the Bombay Government with reference to well assessment, and reassuring Resolution (No. 6682, dated 10th November 1881) was published to the effect that Section 107 (*b*) of the Bombay Code would not be held applicable to "Wells constructed at the expense of the owner or occupant of the soil in which they are dug," and in 1886. Section 105 was partly and Section 107 wholly amended as indicated by inverted commas in the Code as at present printed. The Mysore Land Revenue Code, I may remark, has not been altered or amended but remains very similar in its provisions (Sections 115 and 116) to what the Bombay Code was before 1886. If I may be permitted to say so, the Bombay Resolution of 1881 went a good deal farther than did the amendments to the Bombay Code under Bombay Bill No. VI of 1886, for nothing which is promised in Bombay Section 107, as amended, is denied in Mysore Section 115, but, as regards the Bombay Resolution of 1881 if, as the wording clearly suggests if taken in conjunction with cancelled Section 107 (*b*) of the Code, the mere digging of a well in his land, regardless of where that land is situated, is to give the occupant a lien as it were on the improvements effected by or at the cost of Government, as distinct from those effected by himself, then I think any Government, and certainly the Mysore Government with the enormous irrigation interests at stake, would demur. The treatment now approved by the Mysore Government in revising the well assessment is, however, taken chiefly from and, in all points but one, coincides with what are known as the Bombay Rules of 1874, which affected the whole of the Southern Mahratta Country adjoining Mysore. I wish to make a few remarks on the Mysore policy in well assessment as compared with the Bombay Rules of 1874, especially as regards the one point on which there is a serious difference.

42. *Revision of Garden Assessment in Bombay.*—The Bombay Rules of 1874, as applied to the Bombay Taluk of Ranibennur, adjoining the Mysore Taluk of Davangere now under revision, took the following working effect:—

1st—well bagayet recorded as existing at the time of the last settlement was assessed at the highest dry crop rate;

2nd—well bagayet brought under irrigation since the last settlement was assessed at ordinary dry rates;

3rd—land under wells sunk under tanks so as to draw their water by percolation was assessed at rates not exceeding double the dry crop rate.

43. *Principles of Garden Assessment adopted for Mysore.*—As regards the 1st and 2nd head of procedure as above, I will merely remark that when in Bombay, and now in Mysore, Sir George Wingate's well-known solution of the well assessment question, workable on fixed principles and absolutely just, ceased to find favor, or to be compatible with the policy the Government had in view, the rates adopted for well-irrigated land become rates of mere expediency or limitation without the slightest claim to merit *as rates* with equal incidence. It never apparently struck any one that rates under the 3rd head above might work out lower than under the 1st head, although exactly the opposite was the intention. Sir George Wingate himself had however to yield to circumstances and, in the case of the Indapur settlement, I think, agreed that the highest dry crop rate might serve as the limit of assessment for converted well gardens. This is exactly the position of the Mysore Government in adopting heads 1 and 2 above. But as regards the 3rd head, no Government, in the position of that of Mysore, could in my opinion acquiesce. Double the ordinary dry rate may be a very expedient rate and may serve for purposes of limitation, were such required, but, as a rate, it is based

upon no principles whatever, and its very limit and uniformity would make its incidence all the more startling. The Mysore Government has, I think, not only wisely but of necessity affirmed the principle that while redeeming to the fullest measure the pledge not to take into consideration, in fixing the revised assessment, the increased value of any land due to improvements effected by or at the cost of the owner, during the currency of the previous settlement, it reserves the power to assess "*pro tanto*" the value imparted to such land by the Government's own improvements or by water, the Government's own property. Mysore possesses a proportion of wet to dry cultivated land so great as to find no parallel in any part, much less in the whole, of the Bombay Presidency, and a measure which in the latter country might be, at comparatively little sacrifice of revenue, merely a graceful concession, would, in Mysore, entail an enormous sacrifice of revenue and of that very revenue which is more easily paid than any other. I am not alluding to self-dependent wells but to those which assiduously follow the tanks, which are far older than the wells and which depend upon the tanks and are moreover constructed at far less cost than self-dependent wells. It may be accepted as a standing rule that the greater the advantages the cheaper the well.

44. *Lowness of Revised Garden Assessment explained.*—To return to the taluk under report, only 48 acres have been deemed by me as worth treating as under tank-dependent wells, and the average rate is only Rs. 2-10-3 per acre, less than double the ordinary dry crop rate. Of the garden rates generally, as now proposed, it may be said that they are palpably moderate and a good deal lower than the same rates in Ranibennur, the adjoining Bombay Taluk, revised in 1878, where the average garden rate was Rs. 4-15-6 against Rs. 2-13-4 now proposed for Davangere. The garden rates have worked out thus low because I have been obliged to observe the ruling of Government, in the Proceedings of 24th January 1902, to the letter, making no distinction between ordinary wells and wells which being in unusually favorable position, although under no tank, admit of superior garden produce being taken below them such as supari and cocoanut, usually known as "Dhrupair" which ordinary wells do not admit of. I referred the question in my Memorandum of August 1900, on which the Government Proceedings of 24th January last are based, but Government did not take it up. I shall submit a separate report on the point with reference to future revisions, so that Government may be fully aware of the rights of the question before coming to any decision. As regards the essentially dry crop taluk now under report, the matter is of small importance.

45. *General Results of Revision.*—I now come to the results which may be expected from the imposition of the rates which I have recommended. The statement at Appendix E, which is very much on the same lines as the classwar statement which used to accompany the original settlement reports, contains full details for each village, but one or two excerpts will be useful. Below is shown the effect of my proposals as regards the recognized descriptions of land dry, wet and garden for the occupied Government land :—

	By former settlement.			By revision settlement.		
	Acres.	Assessment.	Average rate	Acres.	Assessment.	Average rate
		Rs.	Rs. a. p.		Rs.	Rs. a. p.
Dry	241,711	1,41,313	0 9 4	241,588	1,77,233	0 11 4
Wet	3,106	8,806	2 13 4	3,711	10,478	2 13 2
Garden ..	1,722	7,630	4 6 11	1,650	4,716	2 13 9
Total ...	246,539	1,57,749	0 10 3	246,949	1,92427	0 12 6

Extension of Irrigation.—The points deserving notice are that the wet area has increased by 605 acres, chiefly due to lands assessed at the last settlement as garden being now classed as wet; and that notwithstanding this depletion of the original garden area, the present garden area is very little below what it was at the original

settlement, owing to new wells since sunk. The taluk is better off now by 535 acres of irrigated land than it was, and I need scarcely say that, in an essentially dry crop country like Davangere, this is a great matter and shows, as I have always been aware, that the raiyats were by no means deterred from expending such little capital as they could command, by any fear of what might be done at the revision settlement. Notwithstanding the increased irrigated area, the combined assessment of wet and garden has decreased, owing to the application to the latter of the liberal policy approved by Government.

Old and New Average Rates.—The average rate for the whole area under all heads is raised by 2 annas and 3 pies, and this increase occurs almost entirely on the dry crop lands. As regards the actual rates they speak for themselves and cannot be challenged on the score of moderation.

Comparison with adjoining Bombay Taluk.—They are lower under all heads than those adopted in the adjoining Bombay Taluk of Ranibennur revised in 1878. I attach no importance to this fact, as much depends upon the mode of grouping in the respective taluks, but it is worth noting. It was chiefly as regards the wet and garden rates that the Ranibennur revision assessment worked out so much higher than in the taluk under report.

46. *Results of Revision in each Group.*—In the matter of the distribution of the increase of Rs. 34,678 obtained under my proposals, Appendix E shows how each village is affected. The following figures show the result of the imposition of my proposed rates on each group or class of villages:—

Group or class.	Number of villages in each.	Maximum dry crop rate.	By former Survey.		By Revision Survey.						
			Government occupied land.		Government occupied land.		Government assessed waste.		Total.		Increase of assessment per cent on occupied area.
			Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	
		Rs. a. p.		Rs.		Rs.		Rs.		Rs.	
I ...	26	2 6 0	29,608	25,663	29,267	30,669	1,318	810	30,585	31,479	20
II ...	125	2 4 0	121,852	81,088	122,254	1,00,076	13,243	6,742	135,497	106,818	23
III ...	86	1 14 0	76,852	39,618	76,773	48,801	11,621	5,396	88,394	54,197	13
IV ..	18	1 12 0	18,827	11,380	18,655	12,881	2,096	726	20,751	13,607	13
Total...	255	...	246,559	1,57,749	246,949	1,92,427	28,278	13,674	2,73,227	206,101	22

Total Increase.—The total increase of revenue on the land now occupied is thus estimated at Rs.34,678 or 22 per cent. The whole increase is obtained on the dry lands by raising the average rate from Re. 0-9-4 to Re. 0-11-7. I have not the slightest hesitation in saying that the settlement now proposed is more favourable to the raiyats, in their improved circumstances, than, at the time, was the settlement of 1865. I am aware that in making this statement I am laying myself open to the charge of not having allowed Government its full share in the increased value of land as to prices of produce, but personally I should consider any revision settlement of which the same thing could not unhesitatingly be said, as, to say the least, an injudicious one and quite opposed to what I believe to be the policy of the Mysore Government with reference to the revision settlements of which this is the first.

47. *Other Sources of Increase.*—There may be some increase of revenue from the jodi lands where the revised assessment is still less than the jodi and yet more than

the old assessment but, on the other hand, the village officers, the patel and shanbhog, will receive additional emoluments. On the whole I see no use in attempting any estimate, as these matters work out their own solution as inherent parts of the revision settlement.

48. *Available Assessed Waste.*—There are still 28,278 acres, almost all dry land, of unoccupied waste, assessed at Rs. 13,674. We may certainly, in my opinion, look for some increase of revenue from this source, but I am not at present aware of how much it may be necessary to reserve from occupation at the settlement, or in the future, in connection with the requirements of the various Departments, notably the Excise Department. That the raiyats will come forward to take up some of these unoccupied assessed lands I have little doubt; and when it is possible, consistently with the requirements of Government in its various Departments, to grant their applications, it should be done.

49. *Cost of Re-survey.*—I cannot, under the present arrangements of establishments and distribution of work, estimate with precision what the revision survey has cost for the taluk under report. Distributing upon this taluk its full share of the whole cost of the Department, which would scarcely be fair, the cost would be about Rs. 60,000. Taking the pay of officers and establishments actually employed, the cost will have been about Rs. 20,000 I am safe in saying that the cost has at any rate been so small that the annual increase of one single year, estimated as I have shown at Rs. 34,678, would recoup expenditure.

50. *Limitation of Increase.*—The Mysore Government has laid down no rules as to the limitation of increase of revenue at revision. I may observe that the increase in no group brought under the same dry crop maximum, has exceeded 23 per cent (33 per cent being the limit laid down for Bombay). In two villages the increase has exceeded 66 per cent (the Bombay limit). As regards increase on individual holdings I am not yet in a position to report, but I think it extremely unlikely that the Bombay limit of 100 per cent will in any case be found to have been exceeded. In two villages Nos. 75 and 101 of group II, the increase has been 84 per cent and 89 per cent respectively, the average revised rate per acre for all descriptions of land being only Re. 0-6-11 and Re. 0-6-10 respectively. The increase of course is chiefly due to the adoption of a Rs. 2-4-0 maximum in place of a Rs. 1-8-0 maximum, but this would not account for the increase, nor would any increase in area; and as I have not in these, or in any other villages, put a higher valuation on the soil or altered the classification rating, that is, the relative value of the soils one to the other as originally fixed by Colonel Anderson, these two villages call for enquiry when the actuals are worked out. They are small villages, and the average revised assessment is absurdly low, but still I think it advisable not to exceed the limit laid down in Bombay. As for any actual hardship from the new rates, it is quite out of the question, the villages being excellently situated near the railway and the revised assessment averaging only Re. 0-6-11 and Re. 0-6-10 respectively. In these instances or in any others whether affecting villages or individuals, if I find the increase when the actuals are worked out exceed the limits laid down in Bombay, I will either revise the rates or report for the sanction of Government. Perhaps the Mysore Government might with advantage adopt the Bombay Rules.

51. I have now concluded my proposals for the revision of the assessment of the Davangere Taluk as now constituted. The partial character of the re-survey, the piecemeal character of the original settlement and, last not least, the frequent changes in territorial jurisdiction have greatly increased the difficulty of collecting useful statistical information, but such comparative statistical information as I have been able to put forward fairly establishes, I think, the right of Government to share far more largely in the increased value of the land than my proposals provide; and is sufficient to gauge the present value of land and the profits of agriculture which are the main considerations upon which the assessment had to be revised. The assessment has in no case been increased on account of increased value due to improvements made during the currency of last settlement from private capital and resources.

52. *Larger increase might have been obtained.*—A larger increase to the revenue could doubtless have been obtained without injustice but, on the other hand, while a substantial increase has been obtained, the people, who are fully aware of the moderation of the old rates and their own improved circumstances, will, I feel sure,

cheerfully acquiesce in the justice of what has been done. They have long been expecting the revision settlement, and nothing struck me so much, during resurvey, as the total absence of any fear on the part of the people of what the new rates might add to their burdens, in fact, the operation was regarded with considerable interest and freely taken advantage of to have their little difficulties and differences adjusted.

53. *Sanction solicited.*—I beg to solicit the sanction of Government to the introduction of the revised rates.

54. *Publication of Period for which Revised Assessment fixed.*—As regards publishing the period for which the assessment had been fixed, this being the first taluk taken up for revision, it will be well to lay down some standard mode of procedure. In Bombay the guarantee (see Form J, Appendix to Bombay Rules) is both published in the district concerned and read out at the announcement of the rates, while the period for which the assessment is fixed is notified in the *Bombay Government Gazette.* I think, looking at the circumstances of Mysore, that the provisions of Section 112 of the Mysore Land Revenue Code will be fully met by publishing the Government sanction and period for which the assessment is fixed, with a list of villages if deemed necessary, in the *Mysore Government Gazette,* and by an approved form of guarantee, which I will submit, being read out, as is always the custom in Mysore, when the rates are being announced.

55. *Year of Levy.*—The revised rates will be announced as soon as possible after sanction, some time during the current year, and should take effect in the next following year 1903-04, which will be the first year of levy and the first of the 30 years' guarantee.

56. Under the above circumstances it is not necessary to extend the date up to which notices of relinquishment are necessary.

57. *Enhanced assessment does not apply to year of introduction.*—Nor need, or can, any question arise of not levying excess enhancement in the year of introduction of the new settlement, for the new rates cannot have effect in the year of introduction.

58. The Mysore Land Revenue Code contains no provision similar to that of Section 104 of the Bombay Land Revenue Code. It is quite unnecessary, therefore, to entertain any question of not levying the excess of the new over the old assessment in the year following the introduction of the revised survey settlement, that is, in the first year of levy, should the occupant be dissatisfied and resign.

59. *Gradual Enhancement discussed.*—Supporters of the plan of gradually introducing enhanced assessment, at revisions, instead of at one stroke, as it were, will no doubt be found. A very able exposition of this question will be found at para 84 and following of Colonel Anderson's Report No. 178 of 1877 on the revision settlement of the old Hangal Taluk of the Dharwar District.

60. I have alluded thus briefly to the few measures which, although not law in Mysore, may possibly find supporters, as desirable concomitants of the introduction of a revised settlement. Of these the extension of the date up to which notices of relinquishment are necessary, the non-levy of excess, enhancement in the year of the introduction of the revised settlement, and the foregoing of the excess should the occupant, dissatisfied, resign in the year following the introduction of the revised settlement, may all be regarded as disposed of. The gradual enhancement plan remains, if considered worthy of discussion. To admit that any necessity exists for such a measure is to admit that the revised rates are really burdensome and that the Government dues are about to be increased so suddenly as to disturb the economic condition of the raiyat, than which nothing could be farther from the truth. The increase of assessment has been wholly obtained by an addition of about 2 annas per acre to the assessment of the dry lands, and amounts to 22 per cent. Well distributed, this represents an almost insensible addition and in probably 90 cases out of 100 would be so small that not the most unreasonable of the supporters of gradual enhancement would advocate their plan being applied. But in a certain number of cases where villages have gone up two classes or the old rates were abnormally low, increases of 50 per cent and more have occurred. I will take an instance, promising that it is a thoroughly typical one. The average rate has been raised from 6 annas to 9 annas an acre, 50 per cent. This new rate of 9 annas is as low in 1902 as 6 annas was in 1865 and is in fact easier to pay. It is nothing more than a light tax, in no way of

the nature of a rent, and is, as far as we can make it, in strict keeping with all the other rates in the taluk. Surely no one will expect me to believe that this new rate of 9 annas will disturb the occupant's economic arrangements so much that he must needs have time given him to pay. He has been expecting the revised settlement for years and even now he will not be called on to pay the enhanced rate for a year after announcement.

61. *Caution in Change of Land Tax.*—In a change of land tax the operation cannot be too simple and intelligible to the people. They can understand that in a certain year the new rates will take effect, but other, to them complex, steps in the transition only mystify them. In my opinion the worry and interference inseparable from such operations would do more harm than the withholding of a paltry and entirely unnecessary concession. I may have gone into these matters more perhaps than seems called for, but I am anxious that the change in the land tax should be carried out with as little trouble as possible to the people.

62. *Appendices.*—The Appendices to this Report will be found alluded to, each at its proper place, but the attached maps, one of the district on a small scale, and one of the taluk on a larger scale, will be found useful for reference.

63. *Original Settlement Papers not attached.*—I have not appended copies of the original Settlement Reports alluded to at para 3. These reports were mere sketches and exceedingly fractional in their application Moreover they have all been printed in "Selections from the Records of the Mysore Government" No. 7 for the Chitaldrug District, in which form they are readily available for reference or for addition to the revised Settlement Report should Government at any time desire the whole correspondence to be printed.

64 *Irrigation Cess.*—There is one point upon which I would solicit a ruling, which is the disposal of the irrigation cess. In the taluk now under report it has always been a separate levy as well as in all taluks settled up to 1875, after which it began to be merged in the survey valuation of all wet and garden lands. In the rates which I have above proposed I have provided for the separate levy of the irrigation cess. The people are quite accustomed to its separate levy and I have no authority to merge it in the assessment. I strongly recommend the separate levy of this cess. The irrigation cess once merged in the assessment, its satisfactory manipulation becomes difficult and confusing. This view was taken in Chief Commissioner's Proceedings No. 6222-5—R. 1093, dated 25th January 1881, and it was suggested that the separate levy should be reverted to in future settlements, as a uniform arrangement for the whole Province would eventually have to be made. Nothing came of the Chief Commissioner's suggestions. I have now adopted the course which, I believe, will finally recommend itself and provide for the irrigation cess as a separate levy.

APPENDIX A.

Extract from letter No. 246, dated 24th September 1895, from the Deputy Superintendent, Mysore Revenue Survey.

With reference to your letter No. 82, dated 21st February last, regarding proposed revision of assessment in the Harihar, Davangere, Chitaldrug, Kankuppa, Hiriyur, Hosdurga and Budihal Taluks of the Chitaldrug District, I have the honor to submit the following report:—

* * * * *

3. There have been several changes in the territorial jurisdiction and the constitution of these taluks, during the currency of the present settlement. The following are some of the principal changes:—

The Harihar Taluk was abolished and all the villages thereof were added to the Davangere Taluk. It was again made into a Sub-Taluk of Davangere with 84 Government villages:—

* * * * *

6. With regard to the prices of the principal articles of agricultural produce, I beg to state that I have collected the data under this head from the genuine and trustworthy accounts of merchants in the several important markets of the above taluks and from the accounts of merchants at Ranibennur, Bellary, Tiptur, Bellavi and Tumkur, where the surplus produce of these taluks is generally disposed of.

7. As a rule the raiyats dispose of their surplus produce in their neighbouring weekly markets in small quantities to petty itinerary merchants, who keep no accounts at all.

8. I may here mention that in places where surplus produce in large quantities is disposed of to wholesale merchants, there was considerable difficulty in getting access to the accounts of these merchants, as it was not easy to persuade them that no harm would come out of their showing their old accounts. With the single exception of one old merchant, at Bilichod, in the Jagalur Taluk, who took a pardonable amount of pride in showing his well kept accounts, the work was an up-hill one and with all my endeavours to obtain reliable data of this nature, I could succeed in getting them in a complete form only for the Davangere Taluk. What is available for other taluks is, however, probably enough to judge of the variations in the ruling prices of the staple articles with a fair amount of accuracy.

9. To obtain the yearly average, I carefully examined the merchants' accounts and calculated it from the prices prevailing in the various periods of each year.

10. I have also obtained the price lists from the Amildars of these taluks. I regret to say that the information on this head could not be supplied in a complete form even from the Government records for some of the taluks.

11. In statement No. I * the prices of the principal articles of produce as recorded in the Government records and as found from the merchants' accounts in the several kasaba and other important village markets, as well as the prices ruling in the markets of Bellary Ranibennur, Tiptur, Bellavi and Tumkur, are separately shown.

* Not appended.

12. An abstract* statement showing at a glance the prices of staple articles in the different years, is appended.

* Not appended.

13. It will be seen from the above that the prices have been very fluctuating before the year 1880-81, owing to the late famine of 1876-78, when the prices were most abnormal. From the year 1880-81, a steady rise in prices is seen, and especially since the opening of the Birur Section of the Railway in the year 1889.

14. I give below the percentage in rise of prices of staple articles of food in the important markets between (the years 1880-81 and 1894-95.)

Name of markets.	Jola.	Ragi.	Bengal gram.	Dry co-conuts
Davangere	41	34	...	...
Harihar	38	32	...	...
Bilichodi, Kankuppa Taluk	22	30	...	..
Chitaldrug	46	59	...	...
Siddavanhalli, Chitaldrug Taluk	30	39	...	...
Holalkere	17	46	...	...
Bagur, Hosdurga Sub-Taluk	42	50	...	...
Hiriyur	38	...	36	...
Budihal	...	...	..	29

15. There is difference between prices of articles as given in Government price lists and as found from merchants' accounts. It is possible that in Government lists, the prices given are sometimes wholesale and sometimes retail or arbitrary. This confusion is absent in the merchants' accounts but in some cases in the village markets the prices found are sometimes the advance rates at which raiyats, who received loans from traders, promised to sell their produce after it was harvested. This rate is necessarily much cheaper than even the wholesale rates. Making every allowance for such disturbing elements, the prices show unmistakable signs of having advanced.

* * * *

20. From the personal enquiries I have made on the spot, I find that generally the value of land has considerably increased, owing to good prices readily obtainable for agricultural produce and to other general improvements that have taken place since the settlement.

* * * *

23. The above information, the following general observations have to be supplemented in order to form an idea as to the relative values of land at the time of settlement and at present, and the ratio of progress or retrogression perceptible in the prosperity of the agricultural classes of these taluks during the term of the present settlement.

24. A great improvement has taken place in the matter of communications. The most important is the opening of the railway which passes through the taluks of Holalkere, Davangere and the present Sub-Taluks of Hosdurga and Harihar. There are as many as 10 stations within the limits of these taluks and sub-taluks as shown below:—

1.	Hosdurga Road station	Hosdurga Sub-Taluk.
2.	Ramgeri	Holalkere Taluk.
3.	Holalkere	
4.	Jajur	
5.	Sasalu	
6.	Maikonda	Davangere Taluk.
7.	Kodagnur	
8.	Tolahunsi	
9.	Davangere	
10.	Harihar	Harihar Sub-Taluk.

25. It is needless to observe that this railway has greatly benefited the agricultural classes. It has given great impetus to trade and opened several important markets in the Bombay Presidency and other places for the ready disposal of the produce of the several taluks of this district. Some cereals such as navane, etc., which had little or no marketable value in some places before the opening of the railway, find a ready sale now and fetch good prices.

26. In the Harihar market there was hardly any trade in ragi during the pre-railway period, while it is now one of the important articles of traffic here.

27. Davangere, which was always a place of trade, has, since the opening of the railway, become the chief trade centre. It not only attracts the trade of all the surrounding taluks of the Chitaldrug, Kadur and Shimoga Districts but also that of the adjoining taluks of the Bellary Collectorate. A large export trade is carried on here, the principal articles of export being cotton, jola, ragi, wheat and oil-seed, Messrs. Binny & Co. of Madras, Christal & Co., Ratly & Brothers of Bombay have their agencies here. The first two firms carry on an extensive trade in cotton, and the last in oil seeds. Messrs. Binny & Co. have also a cotton press here worked by steam power.

From the information I was able to gather, it appears that during last year the agents of Messrs. Binny & Co. and Christal & Co., respectively, exported 60,000 and 30,000 maunds of cotton to the collective value of 4½ lakhs of rupees, while the agent of Messrs. Ratly & Brothers sent out 1½ lakhs of bags of oil-seeds valued at about 10 lakhs of rupees. There is brisk trade carried on here by the local merchants also in cotton and food grains, but there is no accurate information as to the value of the business done by these people, of whom there are many.

28. The trade of the Harihar Sub-Taluk has also been considerably increased since the opening of the railway.

The undermentioned railway feeder roads have been newly opened:—

	From	To
1.	Harihar	Harapanhalli.
2.	Davangere	Hadadi.
3.	Maikonda	Anagode.
4.	Sasalu	Subkere.
5.	Bidarkere	Hosdurga.

and another road from Hosdurga to Hiriyur.

Besides the above, several other roads have been bridged and improved for traffic.

* * * * * * *

32. In conclusion, I beg to state that from the above circumstances and from my personal observations, I am of opinion that the material condition of the agricultural classes in these taluks has on the whole been greatly improved since the introduction of the survey settlement.

Appendix B.

Statement showing the yearly Price of Jola and Ragi, the principal produce in the Davangere Taluk, for 48 years as derived from various independent sources.

Letter No. 384, dated 20th September 1902, from the Deputy Commissioner, Chitaldrug District, to the Superintendent of Revenue Survey in Mysore.

I have the honor to acknowledge the receipt of your letter No. 55 of the 28th July 1902, forwarding, for my opinion, papers containing your proposals for the revision of the assessment of the Davangere Taluk, and in reply to express my entire concurrence as to the suitability of the increased maximum rates for dry and wet lands proposed by you. The old and the new maximum rates are shown below :—

	Old		New	
	Rs.	a.	Rs.	a.
Dry crop land	2	0	2	6
	1	12	2	4
	1	8	1	14
			1	12
Wet land	8	0 }		
	6	0 }	6	8

2. For garden lands, a uniform maximum rate of Rs. 8 per acre has been adopted, the same as that sanctioned at the original settlement. But the revised classification of garden lands reduces the actual average rate from Rs. 4-6-11 to Rs. 2-13-9 per acre. This is very judicious and lenient.

3. It is proposed to divide the 255 villages comprised in the taluk into four groups as regards dry land. The proposed grouping is very judicious, influenced as it has been by considerations of soil, facilities of communication and the nearness to markets. The effect of the new grouping is shown in the following statement :—

Number of villages	Old maximum rate	New maximum rate	Difference	Remarks
	Rs. a. p.	Rs. a. p.	Rs. a. p.	
26	2 0 0	2 6 0	0 6 0	1st group.
72	2 0 0	2 4 0	0 4 0	
41	1 12 0	2 4 0	0 8 0	2nd group.
12	1 8 0	2 4 0	0 12 0	
3	1 12 0	1 14 0	0 2 0	
77	1 8 0	1 14 0	0 6 0	3rd group.
18	1 8 0	1 12 0	0 4 0	4th group.
Total ... 255				

It will be seen from the above that the proposed grouping will seriously affect the 12 villages marginally noted, the maximum rate in which has been raised from Rs. 1-8-0 to Rs. 2-4-0 or 50%. The percentage of increase between the old and the new assessments in these villages, is apparently high, but their introduction into the 2nd group is justified by the richness of the soil and by their proximity to Railway Stations, village No. 1 being near Davangere, No. 2 near Tolhunse and the remaining 10 villages near Kodaganur and Maikonda. In the case of these villages, and especially Nos. 2 and 5 (Rungavanhalli and Chikmagadi), where the percentage of increase is 84 and 89 per cent, respectively, you propose to make special enquiry and afford relief, if necessary, at the time of the introduction of the revised settlement.

1 Chikkanhalli
2 Rungavanhalli
3 Dodmagadi
4 Dindadahalli
5 Chikmagadi
6 Kabbur
7 Vantihalu
8 Vadeiahalli
9 Donkenahalli
10 Heddare
11 Gujikonda
12 Pithahalli

5. There can be no two opinions as to the lightness of the old assessment on dry land, the average being 9¾ annas per acre. The proposed rates give an average of 11¼ annas or 2 annas more. This increase is not much, considering the increased facilities of communication due to construction of the Railway, the opening up of new roads, the rise in the price of jolam, which is the chief product of the taluk, and the general enhancement in the value of land.

6. The total increase of revenue expected from the revised settlement amounts to Rs. 34,678 or nearly 22 per cent.

7. I do not know what the Bombay rules are in respect of the limits of increase to be taken at revisions of settlement; but I would strongly recommend the maximum limits being fixed, so that they may not be exceeded in any case.

8. I quite agree with you in the advisability of the irrigation cess being collected separately from the land assessment.

9. A good gravelled road from Hadadi onwards to Sulikere, connecting the latter with Davangere, is badly wanted. There is at present a cart-track over which there is heavy traffic, it requires to be improved.

10. In conclusion, I regret the delay that has unavoidably occurred in replying to your letter under reference. The Phut Pahani work is nearly completed, and the new rates may be announced in the next cold weather or earlier.

(2) *Letter Camp No. 5, dated 30th March 1903, from the Revenue Commissioner in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.*

Adverting to your docket No. R. 2406—R. F. 8-1900, dated 28th November 1902, forwarding for opinion letter No. 206, dated 30th September 1902, and its enclosures from the Superintendent, Mysore Revenue Survey, *re* the proposed revision of assessment in the Davangere Taluk, I have the honor to state that I proceeded to the taluk on the 24th February 1903, to study the question on the spot. I have appended hereto a memorandum of my remarks on the report. It will be seen therefrom that I am of opinion that the grouping of the villages, the rates proposed, and, in fact, the whole scheme have been carefully worked out, and that no alterations appear to be called for.

2. In the course of my remarks, however, I have touched upon a few questions of general importance, such, for instance, as (1) the advisability of introducing the Bombay practice of consulting the raiyats about the grouping of villages and the rates proposed (para 7); (2) the introduction of some definite principle in the assessment of lands irrigated by wells under tanks and existing at the time of the first settlement now liable to be assessed at discretion according to the rules of 1st January 1902 (paras 9-14); (3) the inexpediency of assessing Dhruvapairu gardens at rates far in excess of the wet lands (paras 16-18), (4) the enfranchisement of the service inam lands (para 23); (5) assignment of lands needed by the Excise, Forest and other Departments and their being shown in the settlement papers as "Kharab," thus avoiding all further interference as regards assessed lands (para 24).

3. I beg to suggest that the general questions may be considered and settled separately. They have not much bearing on the proposals for the revision of the settlement of the Davangere Taluk, having been touched upon incidentally in connection with the observations of the Superintendent of Revenue Survey, made in his report. Orders may be passed on the proposals for the revision settlement without delay.

4. As the season is now far advanced, it may perhaps be better to announce the rates at the next cold season and the revision assessment may then be introduced into the taluk with effect from 1904-05.
